US Beefing Up Marine Forces In Buffer Area

SAIGON, South Viet Nam (AP) — The United States moved heavy reinforcements up to the embattled demilitarized zone today as B-52 bombers raided North Vietnamese infiltration routes just above the buffer area.

Simultaneously U. S. Secretary of Defense Robert S. McNamara arrived in Saigon for a four-day visit to the battlefronts and a survey of the men and money needed for the war.

U. S. military headquarters announced that elements of the two Marine divisions already in the northern provinces were moved closer to the 17th Parallel demilitarized zone which separates North and South Viet Nam.

A battalion of the 173rd Airborne Brigade was moved to Da Nang to reinforce the Leathernecks. It was the first time in the war that U. S. Army troops were deployed in the northern provinces.

U. S. reinforcements were massed in the north to help stem the mounting influx of North Vietnamese forces into South Viet Nam and to bolster the allied forces against an expected major Communist offensive.

Heavy fighting has been in progress just south of the demilitarized zone almost continuously since mid-July. In the last nine weeks, the Leathernecks have killed 1,071 North Vietnamese regulars — the equivalent of two battalions, the Marines have taken many casualties, but their losses are officially termed moderate.

The battlefront just south of the demilitarized zone was reported quiet. No contact was made with the enemy, but Marines uncovered another grave containing 25 North Vietnamese bodies at a site where heavy fighting took place last week. It raised the enemy death count to 1,071, U. S. headquarters said.

Court To Hear Dr. King Appeal

WASHINGTON (AP) — The Supreme Court granted today a hearing to Dr. Martin Luther King and seven other civil rights leaders who appealed their conviction for disobeying an injunction against demonstration marches in Birmingham, Ala.

The case developed from Good Friday and Easter Sunday 1963 demonstrations of the Southern Christian Leadership Conference and the Alabama Christian Movement for Human Rights.

The city obtained the injunction from a Jefferson County court, but the demonstrators marched in protest against what they called Birmingham's "rigid racial codes." Dr. King and the other leaders were adjudged in contempt of court. Each was sentenced to five days in jail and \$50 fine.

Weather

By The Associated Press

Escanab and vicinity — Variable cloudiness with chance of showers today, tonight and Tuesday. Cooler today and tonight. High today, in mid 50s. Low tonight in upper 30s. High Tuesday, about 55. Westerly winds (15 to 25 mph) today, diminishing tonight. Wednesday outlook: Little change. High yesterday, 63 and low overnight, 42. Precipitation probabilities: today, tonight and Tuesday, 30%.

The sun sets today at 6:12 p.m. and rises Tuesday at 6:21 a.m.

Upper Peninsula — Mostly cloudy with occasional light showers likely by evening and over the area tonight, possibly mixed with a little snow at times tonight. Low tonight 38 to 43. Tuesday mostly cloudy with a chance of a few light showers in the east. High mostly in the 50s.

A YOUNG AMERICAN Marine, a make-shift bandage on his head and his face bloodied, waits for the end of the battle against North Vietnamese troops for Hill 484 just south of the demilitarized zone. Then he can be evacuated to a hospital for treatment. Hill 484 was taken by troops of the 3rd Battalion, 4th Marines, after nearly three weeks of fighting. Casualties were described as moderate. (AP Wirephoto)

Eisenhower Says We Need Fast Viet Win

GETTYSBURG, Pa. (AP) — Former President Dwight D. Eisenhower still insists "we must do whatever is necessary to win" fast in Viet Nam. But he calls it silly for anyone to conclude this means he favors U. S. use of nuclear weapons there.

The five-star general who led Allied forces to victory in Europe in World War II says it is an entirely different kind of war in Viet Nam — a guerrilla type which exposes friend and foe alike to any weapons used. Only President Johnson, Eisenhower adds, ultimately can call the signals on broad policy and grand strategy.

Eisenhower says his only advice is that it ought to be a strategy aimed at winning quickly and putting an end to loss of American lives.

But to anyone who got the idea — and some did — that in recent remarks he was calling for or even suggesting use of nuclear weapons to achieve a swift victory, Eisenhower — in response to a quest for comment — has this to say:

"This is silly. How would you use nuclear weapons in Viet Nam?"

Expert Sights US Insolvency

WASHINGTON (AP) — Jacques Rueff, a French fiscal expert, says failure of the United States to solve its balance-of-payments problem is threatening it with insolvency.

Rueff, monetary adviser to French President Charles de Gaulle, said "nothing is wrong with the American economy." But he said there is cause for alarm because of the steady rise in foreign claims in dollars — against a decreasing amount of gold.

In a copyrighted interview in this week's "U. S. News & World Report," Rueff said "this situation — diminution of assets and increases of liabilities — can only result at some point, in inability to pay, in insolvency."

Rueff, interviewed at Paris, said that to finance growing world trade and payments, the value of gold should be doubled in value simultaneously by all countries.

Soviets Reject British Bid On Viet Nam Peace

UNITED NATIONS, N. Y. (AP) — Britain failed Saturday to get the Soviet Union to join in reconvening the Geneva Conference for peace negotiations on Viet Nam.

Foreign Secretary George Brown of Britain asked Soviet Foreign Minister Andrei A. Gromyko, as the other co-chairman of the 1964 conference, to set up another one, British sources said, but Gromyko's response was discouraging, and no basic change in the Soviet position was apparent.

The basic Soviet position has been that now is no time for a new conference.

Parties Finding War Not Issue For Vote Hunt

WASHINGTON (AP) — With less than a month of campaigning left, strategists of both parties are admitting privately they haven't found the Viet Nam war to be a congressional election issue.

Most candidates interrupting their campaigning to check in now and then for major Senate and House roll calls report the voters are disturbed about the ever-enlarging conflict and frustrated by the apparent failure of peace efforts.

But how the average citizen will react to this at the polls Nov. 8 remains largely a mystery. One Democratic senator, seeking re-election, seemed to voice the sentiment of many of his colleagues.

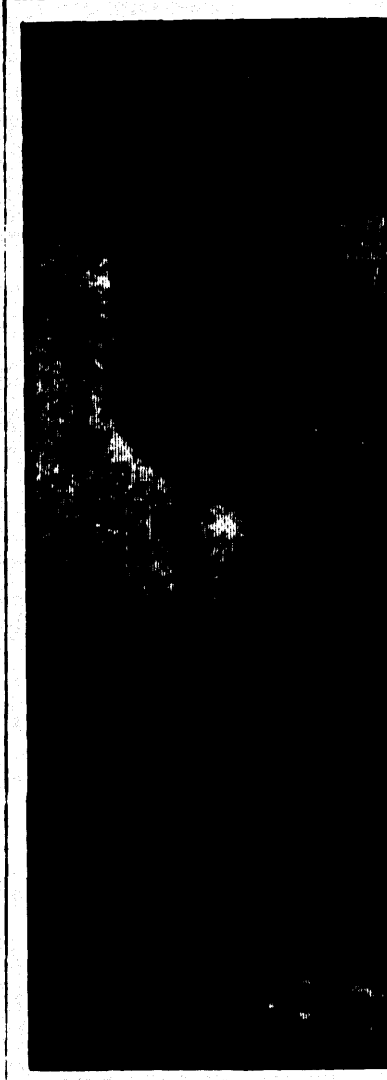

"I know the people wish we didn't have this war on our hands and wonder why we ever got into it," he said. "They'd like to have it end but not many of them want to cut and run. I think most of them believe President Johnson is doing the best he can."

"My opponent hasn't found any way yet to blame me for the war and as far as I can tell it isn't an issue that will affect many votes one way or the other."

Former President Dwight D. Eisenhower has cautioned fellow Republicans against trying to make an issue of administration policy in Viet Nam. He feels that in war Americans ought to stand squarely behind the commander in chief — the only person, he says, who ultimately can call the signals on broad policy and grand strategy.

Stray Shot Hits Park Visitor

HESPERIA (AP) — A rifle bullet believed to have been a stray shot, struck Mrs. Helen Houston, 44, of Ravenna, in the stomach Sunday in the White River federal park near Hesperia. She was reported in good condition at Gerber Memorial Hospital in Fremont.

MRS. BURTON PIERCE, 33, above, the former Jane Bunche, daughter of United Nations Undersecretary and Nobel Prize winner Ralph Bunche, was found early Sunday lying in the courtyard of her apartment building in the Bronx borough of New York. She was pronounced dead on arrival at Jewish Memorial Hospital. Police said she either fell or jumped to her death, adding that no notes were found. The Pierces have three children. (AP Wirephoto)

Indiana Dunes Vote Tuesday

WASHINGTON (AP) — A years-long controversy over a proposed Indiana Dunes National Lakeshore comes to a showdown tomorrow when the House votes on the issue.

The Senate last year approved a bill authorizing acquisition of 11,282 acres of dune and bogland along the shore of Lake Michigan.

The House version would include considerably less land due to trimming by the Interior Committee, but project backers are hopeful of adding acreage either through a floor amendment or through a house Senate conference.

A last stab at defeating the bill on the House floor gets underway today when a group claiming to represent building trades unions from the area around the proposed park assembles in the capital.

The group's contention is that the proposed conservation and recreation area would take land that could be utilized better for industrial purposes.

Inez Veers Inland; Fury Misses Texas

A COUPLE OF uprooted trees lie before the city hall of the Mexican Port City of Progreso, which for six hours Friday was swept by winds with a force of 125 miles per hour as Hurricane Inez was about 30 miles off the coast of the Yucatan Peninsula. The 15,000 inhabitants were evacuated as the hurricane approached. (AP Wirephoto)

Gromyko Meets With President

WASHINGTON (AP) — President Johnson meets with Soviet Foreign Minister Andrei A. Gromyko late today amid a scent of slight improvement in U. S.-Soviet relations.

U. S. sources cautioned against any great expectations from the White House session, which was in the nature of a courtesy visit since Gromyko is in this country attending the U. N. General Assembly fall session.

But the mere fact of a Gromyko trip to Washington was a step above the icy atmosphere that set in with the massive U. S. military involvement in Viet Nam in 1965.

A year ago Gromyko stayed away from the U. S. capital, though he went to New York as usual for the annual U. N. opening and had stopped at the White House in previous years.

The Kremlin still supports North Viet Nam against what it terms American aggression, and it has served notice it will not move for peace talks until Hanoi wants them. Gromyko spurned another peace bid in New York Saturday, which had been presented by British Foreign Secretary George Brown.

What appears new is a Soviet interest in possible deals with the West on matters other than Viet Nam. And a major reason for this, in the opinion of U. S. analysts, is that Communist China's Red Guard convulsion has heavily damaged Peking in her rivalry with the Soviet Union for leadership of the Communist camp.

Three Men Die In UP Traffic

By The Associated Press

Two young men died Sunday when their stripped-down "doodle bug," an old car from which all protective body parts had been stripped, ran off a road and turned over, pinning them in a ditch.

The victims were among 15 persons killed in weekend traffic accidents in Michigan.

Tuscola County sheriff's deputies said Robert A. Whiteman, 22, of Roseville, and Stanley J. Matesowicz, 22, of East Detroit, apparently were road testing the vehicle when it ran into the ditch north of Kingston.

The men's wives, JoAnn Whiteman and Letita Matesowicz, had been following the vehicle but lost sight of it when it turned a corner shortly before the accident. Sheriff's men said the car consisted of nothing more than the chassis and running gear with a platform and seat for the men to sit on. The wives hunted for their husbands for two and a half hours before learning they had been killed on the rural road, sheriff's deputies said.

Also killed were Larry Walker, 18, of Flint, when the vehicle in which he was riding struck the rear of a truck parked on the pavement of a county road east of Gastra in Upper Michigan's Iron County Saturday night.

Gary Lee Johnson, 27, of Vulcan, died Saturday of injuries suffered Friday night when his car ran off U. S. 2 near Norway in the Upper Peninsula and rolled over.

Walter Lummukka, 32, of Ishpeming, when he was struck by a car on M 28 in Ishpeming Saturday.

17-Day Storm Causes Deaths Of 150 Persons

BROWNSVILLE, Tex. (AP) — Hurricane Inez slashed the Mexican Coast north of Tampico today and headed inland on a course that may spare South Texas and its multimillion-dollar citrus crop.

The Weather Bureau at New Orleans reported that Tampico, a city of 200,000 population, had wind gusts of 90 miles an hour.

A portion of the 17-day-old storm, which has taken at least 150 lives since developing out in the Caribbean, moved over the Mexican Coast, the Weather Bureau said.

It added in a 6 a.m. EDT advisory that the 50-mile-wide eye of the storm was expected to go inland this morning 25 to 100 miles north of Tampico and 150 to 225 miles south of Brownsville, near the villages of Moron El Sabino and Nuevo in the state of Tamaulipas.

Moving Westward

The dangerous hurricane was located by Brownsville radar about 195 miles south of Brownsville. Inez was moving westward at six miles per hour. It was the second recent change in course for the hurricane. Early today Inez swung to a more westerly path and headed toward the Tampico area.

About 24 hours earlier it had deserted a similar course and pointed its 135-mile-per-hour winds toward the South Texas coast.

The Weather Bureau said Inez' present course would put Brownsville, a city of 85,000 on the Texas-Mexico border, out of the hurricane-force area.

Warnings Given

Hurricane warnings remained in effect from Tampico to the Brownsville-Port Isabel area, with warnings another 150 miles northward to Corpus Christi and a hurricane watch alert to Port Arthur near the Texas-Louisiana line.

Thousands of evacuees from the flatlands surrounding Tampico jammed into the City Hall and other concrete structures there.

Grocery stores and service stations in towns near the Gulf Coast of South Texas exhausted supplies of candles and flashlight batteries.

Citrus Growers Fearful

Citrus growers in the lush Lower Rio Grande Valley said their trees were heavy with ripening fruit and a storm could inflict severe damage. In the 1953 hurricane 90 per cent of the crop was destroyed.

Inez came out of the eastern end of the Caribbean late last month, pounded parts of the West Indies and took two whacks at Cuba before moving northward toward Florida.

The hurricane reversed itself and drifted westward through the Gulf of Mexico.

Eaton Workers Vote On Pact

KALAMAZOO (AP) — Some 1,100 members of Allied Industrial Workers, Local 822, AFL-CIO, voted today on ratification of a new contract with Fuller Transmission Division of Eaton, Yale & Towne Inc.

Company and union negotiators reached tentative agreement Thursday on the new pact, ending a strike which began Aug. 31 when the union turned down a company offer on a new three-year pact.

The reason for the strike and details of the proposed settlement have not been made public.

Officials for Fuller, a key supplier for International Harvester, say the truck and tractor-transmission manufacturing division has lost \$5.5 million in sales in the first month of the strike and that the walkout cost employees \$667,000 in wages.

Michigan Pilot Leads Train Raid

SAIGON (AP) — Air Force Capt. Clarence L. Fulkerson Jr., 36, of Dearborn, Mich., led a flight of Phantom jets which overtook and damaged a four-car train about 115 miles northwest of Hanoi Friday, the U. S. Command announced today.

The announcement said the train was traveling about 40 miles-per-hour when Fulkerson's flight spotted it, but when the attack started, it increased speed to about 60 MPH in a futile escape try.

Newspaper Week Is A Reminder

Press Changes With Times

By WILLIAM B. DICKINSON
Philadelphia Evening Bulletin

Your newspaper is changing—changing for the better—even as you read it from day to day and week to week.

In most cases the changes are in the direction of more attractive type dress, better makeup, more understandable headlines, more interesting and useful service features. And, most important of all, in improved news content.

Unless you're an unusually perceptive and thorough newspaper reader, it's unlikely that you will even have been aware of most of these changes—because they have been made gradually.

Your newspaper is thicker today than it was 10 years ago. There's more news and there's more advertising.

Advertising Growth
The Bureau of Advertising of the American Newspaper Publishers Association recently reported that newspapers are "in the midst of one of their greatest growth periods ever, with more than \$1 billion of advertising revenues having been added during the past three years alone."

Newspapers compete with TV, radio and magazines. But the ANPA report says that newspapers in 1956 will get 49 percent of the more than \$700 million in added expenditures, over last year, for advertising.

The reason, clearly, is that advertisers get results from their newspaper ads. And that clearly, is because readers like to study newspaper advertising before they buy. They can compare prices and products in a way that is impossible in the other media.

Newspaper circulations are growing steadily. More than 60 million copies of newspapers are sold in the country every day.

But the biggest—and most important—change in newspapers has been in their selection and handling of the news they print. In part this has resulted from the competition provided by television and radio.

William B. Dickinson

The newspaper no longer has the function, in which it took pride for many years, of being first to reach the public with the big news breaks. While newspaper production methods have been speeded up in recent years, a major story, such as the assassination of a President, now reaches millions by way of the electronic media before a newspaper can put copies on the streets.

But, as Walter Cronkite has pointed out, "radio and television cannot do the job because of built-in limitations."

"...The fact of the matter," he says, "is that it is simply impossible by the spoken word or the electronic tube to communicate all the information that any given individual citizen or community needs."

If Cronkite or any other TV or radio newsmen were to read steadily for a half hour, he would barely be able to cover the news on the front page of your newspaper.

He could not give his listeners or viewers an adequate report on markets, he could not provide complete sports results, he could not give recipes and household hints and advice to the homemaker, or comics, opinion columns, or editorial views, or any of the many other features which are a part of the daily newspaper.

Newspaper's Task
More important, the electronic media cannot give the day-to-day news in the depth the

people need to exercise their franchise as free citizens.

So the newspapers now have the task of putting flesh on the bare bones of the news, of illuminating an event or a situation in a way that will make it understandable to the reader.

It is the newspapers' acceptance of this role, and their concentration on it, that have caused many of the changes in their content.

Not that newspapers no longer print the spot news as it breaks. They do, and they must continue to do so.

But newspapers also have learned to go beyond and behind the news, to search out the situations and developments that concern the readers, and to report and write about them in a meaningful way.

Guardian Of Area
There is much greater emphasis now than there was even 10 years ago on coverage of the fields of science, education, housing, health, business and finance—all the areas which are of steadily increasing concern to a steadily better educated and more sophisticated audience.

As Ben Reese, former managing editor of The St. Louis Post-Dispatch and now chairman of the advisory board of the American Press Institute, has said, a community has the right to expect from its newspaper not only to get the day-to-day news and features, but also these three things:

1. That the newspaper should be the guardian of the town.
2. That the newspaper should try its best to preserve public virtue.
3. That the newspaper must fight for the rights of its readers.

There is, Reese points out, no other agency in your town that can do this job.

AFL-CIO Plans Marquette Meet

An AFL-CIO Upper Peninsula conference will be held from Noon to 4 p. m. on Saturday, Oct. 22, at Marquette at Northern Michigan University. It will deal with the questions of organization, collective bargaining, contracts, education and legislation.

Officers, executive board members, stewards, and interested members are invited. State Council Vice-President John Kampinen, County Road 550, Marquette, is in charge of registry, and Representative Max Goree is the conference chairman.

Wells

4-H Club
On Oct. 3 at St. Anthony's Church the first meeting of the Wells Working Workers was called to order by Mrs. Clifford Larson. New officers are: President, Chris Larson, Vice President, Kathy Way; Secretary, Ronese Nantelle; Treasurer, Lynn Breitzman.

Younger members were elected to help the officers so as to better themselves for the coming years of 4-H work. They are Vice President's helper Paula Dahlgren; Secretary's Carole Larson; Treasurer's Pam Hanson. Also elected were reporters, Bonnie Larson and Linda Thielum.

The senior leaders for the year are: Mrs. Clifford Larson, Mrs. Reginald Piron, Regina Piron. Junior leaders who are helping clothing projects are Bonnie Larson, Chris Larson, Lynn Breitzman. The lunch committee is Pat Way and Dot DeMars. Lunch was served on Monday by the junior leaders.

About one of every five adults in the United States are overweight, according to the Encyclopedia Britannica.

Williams Will Talk Oct. 12

Former Gov. G. Mennen Williams, campaigning as the Democratic nominee for the U.S. Senate, will address a Bay de Noc Community College audience at the college on Wednesday at 1:30 p. m. in the Student Center on the international situation, with particular regard to Africa and Viet Nam.

He will be accompanied by Michigan Attorney General Frank Kelley and Congressman Raymond Cleveland, but they will not speak.

The talk will be open to the public and the main entrance to the student center from 9th Ave. will be used. There will be opportunity for questions after the address.

College President Richard Rinehart will introduce Williams. Rinehart said "This is an excellent opportunity for the students and public to give close examination to the critical issues affecting our public policies."

Republican Congress nominee Philip Ruppe addressed a college meeting earlier.

Sister Saved

JACKSON (AP) — Herbert J. Crawford, assistant Jackson fire chief, has praised the quick action of safety patrol girl Deborah Woods, 12, for saving the life of her sister, Diane, 5. When Diane ran into the path of an oncoming truck Friday, Deborah dashed out, grabbed her sister and threw her clear of the truck, Crawford said. The children are the daughters of Mr. and Mrs. Howard C. Woods of Jackson.

Lack Space For 12,500 Children

NEW YORK (AP) — City School Supt. Bernard E. Donovan says the city has the money and personnel to accommodate 12,500 additional kindergarten children but lacks space for them.

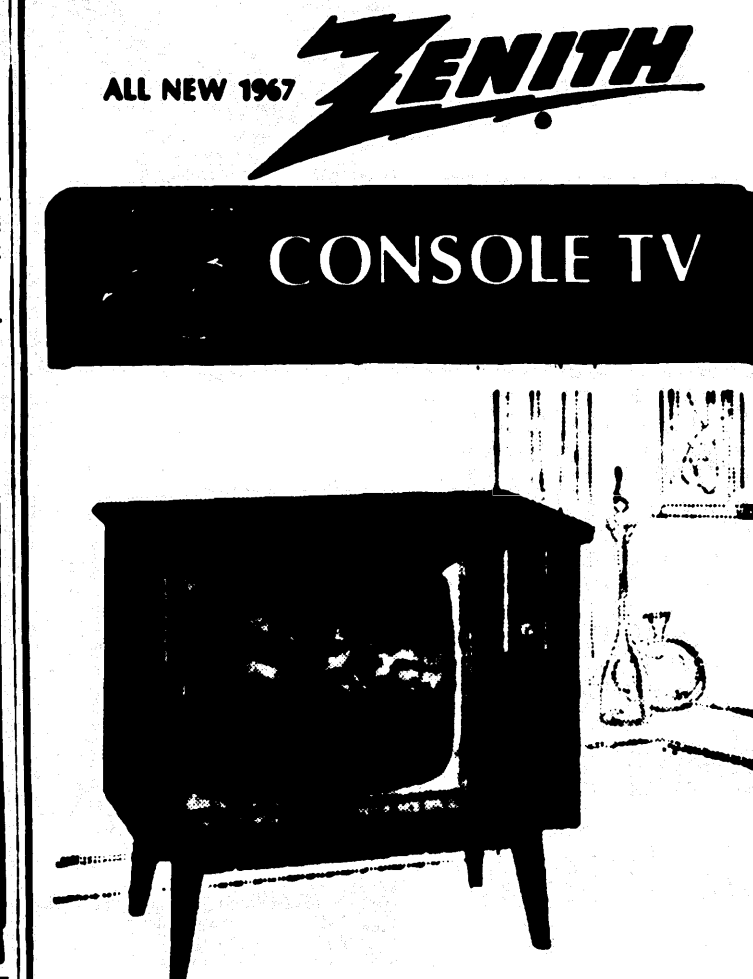

Donovan appealed to New York residents to notify his office of any spaces which are available and would be suitable for classrooms.

Science Shrinks Piles
New Way Without Surgery
Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were

so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne®) — discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Preparation H®. At all drug counters.

Worry of FALSE TEETH Slipping or Irritating?

Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FASTEETH on your dentures. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, soapy, pasty taste. Dentures that fit are essential to health. See your dentist regularly. Get FASTEETH at all drug counters.

Music Man To Be Presented

The Players de Noc have contracted to produce the Broadway Musical, "The Music Man," by Meredith Willson on Dec. 5, 6, 8 and 9. It will be directed by Jack Romstad, drama, and Mrs. George A. Peterson, music. This is the first Broadway musical that the Players de Noc have produced.

Tryouts for "The Music Man," will be held in Room 101, the Bay de Noc Community College, the 8th Ave., entrance, this Tuesday, Wednesday and Thursday evenings.

All interested persons are invited to try out for acting or

Rebuild Motel

MACKINAW CITY (AP)—The fire-gutted wing of the Sands Motel, hit by a \$75,000 fire Friday night, will be rebuilt, owner Edward Boroway said Sunday. He said 18 of the 28 sleeping units in the structure were damaged and six units in the adjoining Thunderbird Motel, owned by his brother Henry, were damaged.

Classified Ads Cost Little But Do A Big Job

singing roles. This includes chorus singers, barbershoppers and soloists. "The Music Man" is a musical comedy with a very large cast.

Records, music scores and scripts will be available in an adjoining room (102) before tryouts.

Elly Peterson

Elly To Speak Here Thursday

Elly Peterson, chairman of the Michigan Republican State Central Committee, will speak at a dinner meeting honoring Philip Ruppe and Charles Varnum to be held Thursday night at the Dells Supper Club.

Ruppe is Republican candidate for Congress and resides in Houghton; Varnum seeks the seat in the State Legislature from this district and is a school teacher from Manistique.

Reservations for the GOP fund-raising dinner must be made not later than Wednesday, said Forrest Henslee, program chairman. The dinner will be at 7 p. m.

Recognized as one of the leading Republican organizers in the nation, Elly Peterson is also in demand as a speaker because of her eloquence and wit, combined with hard-hitting assaults on the political opposition.

She was national director of the Republican Women's Division in 1963 and two months later was named assistant chairman of the GOP national committee. Last year she accepted the chairmanship of the Michigan GOP Central Committee at the urging of Gov. Romney.

John Walbridge, member of the 11th District Congressional committee, will be the toastmaster at the GOP fund raising dinner honoring Ruppe and Varnum.

Reservations must be made not later than Wednesday by mail or phone to Forrest Henslee, State Bank of Escanaba. The tickets are \$10 each or \$15 per couple.

More than 1,000,000 women purchase hunting licenses in the United States every year.

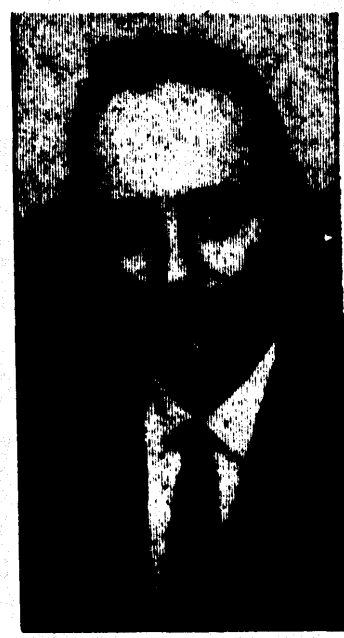

Herb Peterson Acquires Weekly

Herbert W. Peterson, employed in the Marquette Mining Journal advertising department since last May, announces that he has purchased a suburban Fort Worth, Texas, weekly newspaper company and will assume ownership Oct. 15.

Peterson began his newspaper career with the Manistique Pioneer Tribune. He left the Tribune and attended Western Michigan University where he majored in business administration.

When he left WMU he moved to Escanaba in 1954, where he took a sales position in the advertising department of the Escanaba Daily Press. He remained here until moving to Marquette last year.

A graduate of Manistique High School, Peterson is presently on the board of directors

Herbert W. Peterson

Escheated Goods Sale At Capitol

It is possible for the State of Michigan to inherit everything you own.

The law says that if you die intestate or abandon your property for a period of seven years, your property will be escheated to the state. Consequently the state receives inheritances from all over Michigan. Getting the cash value out of escheated personal property has always been a problem.

This year State Treasurer Allison Green announces a new plan for disposal of escheated property. He will sell at public auction, an accumulation of items that should interest collectors.

The auction will be held in the chamber of the House of Representatives in the State Capitol at Lansing at 10 a. m., Thursday, Oct. 20.

Golf Event At Country Club

Open golf will be played by members of the women's golf league of the Escanaba Country Club Wednesday, followed by a potluck supper.

Golfers are asked to make up their own foursomes for golf, if weather permits play, and dinner reservations must be phoned to the club house by Tuesday noon. Members of the country club bridge league are also invited to attend the dinner.

of the Marquette Exchange Club. He is a past president of the Delta County Printing Trades Credit Union and was active in several community musical and band activities in Escanaba.

The Petersons reside at 1609 Elm St. in Marquette with their seven children. Mrs. Peterson is the former Beverly Gafner of Escanaba, daughter of Mr. and Mrs. Emil Gafner.

Beck Candidate For Bay Board

Nominating petitions for Arol Beck as a candidate for the Bay de Noc Community College board of trustees were to be filed with the board secretary at the college today, Beck announced, as the 4 p. m. deadline for filings neared.

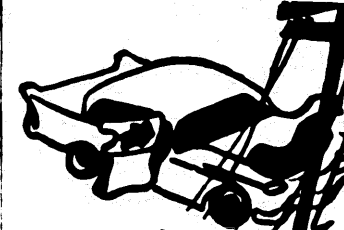

Also reported preparing nominating petitions for filing was Ray LaPorte, executive director of the Menominee-Delta-Schoolcraft Community Action Agency. Earlier announcements assured that there would be a field of candidates so that there would be choices for the four board trusteeships to be filled in the Nov. 8 election.

Beck is owner of the Western Auto Associate Store at 1323 Ludington St. He is a native of Escanaba and graduate of Escanaba High School and of Delta Normal School. He taught at Ford River in 1929-30, attended the University of Michigan, DePaul University and the Chicago Conservatory of Music and taught music at Birmingham, Ala., and served as a director of personnel training for the Civil Aeronautics Administration in the South.

He started his own business here in 1953, served on the Escanaba Board of Education from 1954 to 1962, and was school board president in 1956. He headed the Delta County Red Cross for two years and is a director of the Escanaba Chamber of Commerce and of the Kiwanis Club and has been a leader in municipal music programs for years.

The recorder is a medieval woodwind instrument much like a flute.

Ever feel like this when the phone rings? You need an extension.

You're mixing a cake in the kitchen and the phone rings—in the bedroom. Or perhaps you have only a kitchen phone, and it rings while you're making the beds. You know the feeling. But with a phone in both places, you never feel up a tree. For the sake of your sanity, order a convenient extension phone.

Extension phones now cost less!

The monthly rate for an extension phone is now only 84¢. And there's no installation charge.

The one-time charge for Princess® phones has been reduced. We'll now connect one or more Princess phones at the (All charges subject to state & federal taxes.)

*This charge is in addition to any service connection or change charge that may be applicable.

same time for just 84¢ (used to be 85¢ each). And the monthly rate for a Princess phone is still just 75¢.

To order your Princess extension phone, just call your telephone business office, or ask your telephone man.

Highway Business

The Upper Peninsula has been in the business of promoting tourism for more than a third century. The effort at first was very feeble — like tourism itself. They didn't even call it "tourism" then, although the "touring" car was one of the first models developed when the carriage makers managed to make an automobile that could be trusted outside the city limit.

Highway development was necessary to develop tourism and we have had a great national splurge of it and the Upper Peninsula has had some of it, although less than heavy traffic areas downstate. Some Upper Peninsula trunklines are inadequate to the point of being unsafe, but the greatest deficiencies of the state and federal governments' highway programs in the Upper Peninsula have been in:

1. Giving it more than 300 miles of breadth no east-west segment of the Interstate Highway System.
2. Giving it no network of scenic highways to exploit its great scenic attractions.

The Upper Peninsula's efforts in tourism promotion started almost by chance. The old Upper Peninsula Development Bureau inched into it sort of accidentally as a sideline to its main activity of promoting sheep ranching, clover growing, dairy herd improvement, orchard development, settlement of immigrants on cut-over lands — in short, development of local resources, in this case chiefly the soil.

The plow was going to follow the axe that cleared the forest (actually the saw did it) but today thousands of acres that were cleared so laboriously by hand have been planted back to trees. We know more about resources today, and their values change. It could not have been conceived when the U.P. Development Bureau was formed in Menominee in 1911 that land might eventually be worth more for recreation than for raising food for people to eat. But it has happened.

If this can be understood, the problem of Upper Peninsula tourism development can be approached realistically. The Upper Peninsula has a tourism industry, of course. It is a big one. It is a big part of the state's \$1 billion tourist business this year, the biggest ever.

But the informed view of the U.P. effort in tourism is that it is inadequate. This is a huge, expanding business and the Upper Peninsula's and the State's arrangements to get our share of it should come under critical scrutiny. We have assets which are world-famous — scenic beauty, historicity (the U.P. is historic as a contemporary of the early settlements on the Atlantic seaboard) and geological uniqueness. The area originates the climate for the Midwest and is socially special in having been settled so early and having developed so late.

The U.P. Development Bureau was succeeded by the Upper Michigan Tourist Association at the beginning of this decade. It is having its annual meeting at Indianhead Mountain Resort at Wakefield on Monday and Tuesday, Oct. 24 and 25. The meeting is a milestone in U.P. Development. It will hear the report of an Advisory Committee headed by James Gooch of Michigan State University, from W. H. Treloar, publisher of the Panax Newspapers on what the U.P. should do — really — to cash in on the tourism bonanza.

In an age of planning, U.P. tourism is being offered a plan.

If it is regarded as something only for the motel operators of the U.P., the Advisory Committee will have wasted its time and there will be small prospect of the change that is needed to give the U.P. a big leap forward in tourism.

But if it excites the U.P. to accept a challenge for growth, it will not have wasted a half year of devoted study of the opportunity that faces the Upper Peninsula in the millions of persons who want to spend their money in pleasant, informative recreation and who don't even know about the Upper Peninsula. They are not coming here in maximum numbers unless there are some changes made.

The Indianhead Mountain meeting is open to the public. It has not been invited to a meeting with more promise of new directions in the Upper Peninsula since Francois Daumont, Sieur de St. Lussan claimed the Midwest for Louis XIV of France at Sault Ste. Marie in 1671.

The Bath coup derives its name from the resort town of Bath in England. Bath was a great whist center in the 19th century and the play was supposedly first used there.

Specifically it consists of letting an adversary's king hold the trick when you have both ace and jack. If the adversary continues the suit you make both your ace and jack. If he shifts you may gain time to go after tricks somewhere else.

Today's hand which is taken from Ely Culbertson's *Red Book* illustrates an effective use of the Bath coup.

Trying To Reduce Extremes

Great Lakes Control Studied

TRAVERSE CITY — Great Lakes water levels have risen as much as 20 inches from the all-time lows of 1964. The smallest of the Great Lakes, St. Clair, is the one that has had the greatest comeback.

Lakes Michigan and Huron are one and a half feet above the all-time lows of 1964.

The upward trend of levels in America's inland ocean — the world's greatest body of fresh water — is expected to continue during the next six months, according to B. G. DeCooke, chief of the water regulation branch of the U. S. Lake Survey, an activity of the U.S. Corps of Army Engineers in Detroit.

DeCooke addressed the Michigan Section, American Water Works Association here Oct. 6. "Michigan's lake levels will continue their gradual rise," said DeCooke. "We can now assume the public and others in the state who consider the Great Lakes water levels vital because they are so important to business and industry that these levels are going to be above the 10-year average in the foreseeable future."

Other speakers include a number of ground-water experts who revealed less encouraging news — that Michigan's ground-water levels are not keeping pace with the big-lake levels.

Below Median
"Inland lake levels are about a half inch below the 200-year median," according to a spokesman for the Michigan Conservation Department. This report is based upon levels in the inland lakes of southeastern Michigan.

Another reason why the water levels on both Great Lakes and inland lakes are so important is that these conditions have a great deal to do with the effectiveness of water pollution prevention programs and watercourse beautification programs, in which Detroit and other Michigan cities and rural areas are extensively involved.

"During the last few years," said DeCooke, "Great Lakes water levels have drawn much public attention and have created many problems because of near-record and record low levels. Fifteen years ago, the problem was not low levels but high levels."

"These fluctuations were caused by natural phenomena, by diversions, and to a certain extent by the works of man. Studies made by the International Joint Commission (the United States and Canada) have been undertaken and a great deal of information compiled for future use."

The major objective of control of the Great Lakes levels, according to DeCooke, is to "bring about a more beneficial range of stage for, and improvement in, domestic water supply and sanitation, navigation, water and power industry, flood control, agriculture, fish and wildlife, recreation and other beneficial public purposes."

DeCooke said that the five big lakes (Superior, Michigan, Huron, Erie and Ontario) with their connecting rivers (St. Mary's, St. Clair, Detroit and Niagara, and Lake St. Clair) have a water surface of approximately 95,000 square miles, or equal to the land areas of Michigan, South Carolina and Massachusetts.

"The total area encompassed by the drainage basin," said DeCooke, "both land and water above the head of the St. Lawrence River, is approximately 295,000 square miles, about twice the size of the water area, of which 175,000 square miles are in the United States and 120,000 square miles in Canada."

The various artificial factors which have modified the supplies and outflows of the lakes have been in existence over different periods of time and their effects have not been all in the same direction.

The diversions to or from the lakes through man-made channels are the artificial factors which concern engineers involved in the U. S. controls program. The most significant artificial factors are:

1. Long Lake and Ogoki diversions in Lake Superior, commenced in 1939 and 1943 and since 1945 the sum of these diversions has averaged the astounding figure of 5,000 cubic feet a second, according to DeCooke.
2. Regulatory works on the St. Mary's River. The outflows from Lake Superior have been controlled by the lock and dam system at the Soo since 1922.
3. Chicago diversion, from Lake Michigan into the Mississippi River basin commenced about 1848 and averaged 500 cubic feet a second until 1900, and thereafter increased until the maximum average was 10,000 cubic feet a second in 1928. Total diversion is now 3,100 cubic feet a second out of the Great Lakes basin.
4. Other major diversions are through the Welland Canal which bypasses the Niagara River, the Gut Dam in the St. Lawrence River and other regulatory works in the St. Lawrence River.
5. Control of the ups and downs of the Great Lakes affects, principally, riparian interests, navigation interests and power interests, according to the Great Lakes Survey.

Whatever that "something" is, it seems very likely to be a prominent element in the half-hour television documentary film now being put together by Guggenheim Productions, Inc., to promote Shapp in the climactic phase of this campaign. Shapp's people would prefer to dwell largely on poll-tested issues.

His springtime documentary was, by the testimony of experts in both parties, a masterpiece—crucial to his success. It was shown in Pennsylvania 35 times between May 9 and May 16, primary eve.

Oct. 14, when Shafer and Shapp join in an hour-long statewide television debate, could prove a new pivot point in this race. If the two men engage heavily in personalities, the remaining weeks may see one of the roughest campaigns in Pennsylvania history.

It is already sharp enough. One top Republican is advising his fellow workers to tell voters that "Milton Shapp is motivated by an unreasonable obsession for power... his rule would be chaotically impulsive, fluctuating to the uneven rhythm of a man consumed by traits and tendencies not often found in officeholders commanding major executive power."

Shapp is giving it right back: "Raymond Shafer and the Republican party are playing fast and loose with the welfare of the commonwealth. They are bringing in their train the far right, bigots and others in whose presence the traditional and honest Republicans will certainly feel uncomfortable."

The peril for Shapp, say some observers, is that in his constant scatter-gun approach he may overreach and lose credibility. His managers candidly say he is hard to control.

The danger for Shafer is that, in his nice-guy blandness, he may not be able to cope with the Shapp barrage.

People, Events Of Yesteryears

From the files of the Escanaba Daily Press

25 Years Ago
Delta County was to have a defense training project sponsored jointly by the National Youth Administration and the City of Escanaba. The project was to be located at the city garage, 118 N. 8th St., Escanaba.

50 Years Ago
With Orange and Black Hi-Y as sponsor, Escanaba High School students staged their annual "snake dance" parade and "pep meeting," calling attention to the Escanaba and Menominee football game.

50 Years Ago
Members of the Escanaba High School football squad will attend a big "feed" prepared by the domestic science department at the high school building.

Horse racing enthusiasts of Escanaba and Delta County have prepared for themselves an unusually attractive racing program to be staged at the county fair grounds track.

Waste Treatment

BUFFALO, N.Y. (AP) — Bethlehem Steel Co. says it will build a multimillion-dollar waste treatment plant that engineers said would halt a major source of pollution in Lake Erie. The project is scheduled for completion by 1970.

Ann Landers

Surgeon Father Says 'Ban Weed'

Dear Ann Landers: My husband is a thoracic surgeon. He has operated on hundreds of people whose lungs have been ravaged by cigarettes. As you know, medical science has discovered a link between cigarette smoking and lung cancer.

We are very proud of our two teen-age daughters. They have been warned of the dangers of smoking and I doubt seriously that they will ever take up the habit.

Both girls are popular. They go to many house parties and their friends seem to be level-headed and sensible. Drinking is not allowed at these parties since we parents have agreed to ban it.

Now my husband wants to impose an additional ban when these teen-agers come to our home — no smoking. He has explained that it is not a moral issue but a health issue.

Our daughters are unhappy about it and have let him know it. They feel that this rule will keep some of their friends away.

I do not want to challenge my husband's authority as head of the house, nor do I question his professional conclusions. But I DO question whether it is wise to impose our health standards on others. Will you express my opinion, please?

— SURGEON'S WIFE

Dear Wife: If your husband were a teacher or a clergyman I would agree with you. The teen-ager would certainly interpret the cigarette ban as a moral issue in spite of his protestations and they would resent it — as well they might.

Since your husband is a surgeon, however, I feel that the ban against smoking in your home would serve as an effective reminder that cigarettes can be deadly. A sensible teen-ager would not be resentful of the prohibition, he would be respectful — and perhaps even grateful. I say more power to your husband.

Dear Ann Landers: Who gives the wedding when the girl's parents are divorced?

My first husband (the father of the girl) wants to foot the bills, which is just fine with me. My present husband has never met my first husband and has no desire to meet him. He says he will not go.

I, on the other hand, dread the whole affair because my ex-husband's wife will be there and I despise her.

Our daughter doesn't care who gives the wedding or who attends. She is interested only in having the most elegant and glamorous affair possible. In other words she's selling out to the highest bidder. What do you think about this? — N.Y. MESS

Dear N.Y. Mess: Let the girl's father pay for the wedding. Leave your present husband at home. Put on your best face and be as gracious as you can to the woman you despise. This is little enough to do for a girl who undoubtedly has shed many tears because her parents could not make it together.

Confidential to CAN'T FIGURE IT OUT: If you think that's a mystery, just how do you explain the phenomenon of a minister living on a salary fixed ten years ago and staying out of debt?

Confidential to * CHANGE PICTURES — YOU LOOK LIKE A MONKEY: Thanks a lot. I'd rather look like a monkey than sound like a jackass. Your essay on what makes life worth living was the most asinine piece of tripe I've ever read.

Do you feel ill at ease... out of it? Is everybody having a good time but you? Write for Ann Landers' booklet, "The Key To Popularity," enclosing your request 35c in coin and a long, self-addressed, stamped envelope.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper, enclosing a stamped, self-addressed envelope.

Some people achieve maturity and some just grow older.

Mom wonders why they don't make car fenders out of steel instead of that soft, dentable tin.

Men who wheel and deal at a four-martini lunch are apt to forget what was wheeled and what was dealt.

Women's Activities

Richard Bucksar To Speak At St. Joe School

A meeting of the St. Joseph's Home and School Association will be held Wednesday at 8 p. m., in the St. Joseph's School Cafeteria.

Richard Bucksar, author, lecturer, traveler and new faculty member of Bay de Noc Community College will be the guest speaker for the evening. His topic will be "Alaskan Adventure," and a film will accompany the talk.

The following committee chairmen have been selected for the new season: program chairman, Jim and Alice Wren; Halloween carnival, Wayne and Marlene Courier and Joe and Eda Ricci; hospitality chairmen, Phil and Marilyn Cretens; finance chairmen, Dick and Emma Meisner; membership chairmen, Thomas and Ann Straebel; publicity chairmen, James and Louise Legault; card party chairmen, Elmer and Dede Bonifas.

This meeting is especially important as final plans and preparations will be made for the Halloween carnival. A board meeting, including all committee chairmen will be held at 7:30 p. m.

All members are invited to attend and refreshments will follow the meeting.

Rapid River

The Rapid River Royal Neighbors will meet Tuesday at 2 p. m., at the home of Mrs. Orin Papineau.

Sandra Carlson Bride Of Bernard Gardner

Miss Sandra Kay Carlson of Marquette became the bride of Bernard Carl Gardner of Wells during a double ring ceremony performed Saturday, Oct. 1, at St. John's Church in Marquette.

Officiating at the nuptials at 12 noon was the Rev. William C. Oremus. Altar boys were Curtis and Michael Carlson, brothers of the bride.

The bride is the daughter of Mr. and Mrs. Norman Carlson of 308 Bluff St., Marquette, and parents of the bridegroom are Mr. and Mrs. Joseph Gardner of 33 Highland Ave., Wells.

Bridal Satin

The bride styled and made her wedding gown and veil and also her attendants' gowns. The bride's gown was fashioned of white bridal satin styled in an Empire line with a floor length skirt and full gathered sleeves of sheer embroidered nylon. A large satin bow with satin streamers accented the back of the gown. A crown of silk illusion petals held her tiered circular veil of silk illusion and she carried a bouquet of white roses, carnations and ivy.

Maid of honor for her sister was Miss Cathy Carlson of Marquette and bridesmaid was Diane Ducheny of Gladstone. Junior bridesmaid was Crystal Carlson of Marquette, a sister of the bride.

The maid of honor and the bridesmaid wore moss green satin floor length gowns styled with three quarter length sleeves and their head pieces were matching net petals. The junior bridesmaid wore a gold satin floor length gown with gold satin ribbon streamers.

Serving as best man was Paul Sabourin of Escanaba and groomsmen was LeRoy Rappette of Chelsea, Mich. Seating the guests were Roger Gardner, brother of the bridegroom and William Plouff of Escanaba.

Mothers' Attire
For attending her daughter's wedding, Mrs. Carlson selected a two piece emerald green lace ensemble with gold accessories and a corsage of yellow roses and white mums. Mrs. Gardner wore a moss green and black

Mrs. Bernard C. Gardner

print dress with black accessories and was presented a corsage of white mums and yellow roses.

The wedding reception was held at the St. John's Hall from 2 to 6 p. m. The rehearsal dinner was given by the bridegroom's parents Friday evening at the Northwoods Club near Marquette.

Following a wedding trip to the Copper Country, Wisconsin and Minnesota, the newlyweds will make their home at 1304 Ludington St., Escanaba.

The bride is a 1965 graduate of Holy Name High School and attended Northern Michigan University. Mr. Gardner is a 1963 graduate of Holy Name High School and attended Bay de Noc Community College.

Large Turnout Grooms Opening Of Bridge Loop

The largest turnout in recent years greeted the opening session of the Elks Duplicate Bridge League Saturday night.

A total of 60 players turned out, about half of them newcomers to the group. New duplicate players were seated East-West with former participants playing North-South.

Clair Hoehn and William Wood teamed to win North-South honors, while Mr. and Mrs. Dale Sviland topped the East-West field.

Other pairs playing over 50 per cent East-West were: 2, Mr. and Mrs. Alger Strom; 3, Mr. and Mrs. Lou Gregory; 4, Mr. and Mrs. Richard Knoll; 5, Mrs. George Bonefeld and Mrs. Virginia Eagles; 6, Mr. and Mrs. Jack Beck; and 7, Mr. and Mrs. William Mulvaney.

Other North-South pairs over 50 per cent were: 2, Mr. and Mrs. Elmer Feldt; 3, Jim Coon and Mrs. Kibby Treiber; 4, Mr. and Mrs. Dave Andrews; 5, Mr. and Mrs. Al Taylor; 6, Mr. and Mrs. John Sankovitch; 7, Carroll Douck and Claranne Kaitenbach, and 8, Mr. and Mrs. Robert Pearson Sr.

The club will play again at 7:30 p. m., next Saturday, at the Elks Club.

Social-Club

Golden Age Club
The Golden Age Club will meet Tuesday at 7:30 p. m., at Club 314. Cards, dancing and lunch will follow the meeting. New members are welcome.

Fast Noble Grands Club
The Fast Noble Grands Club of Phoebe Rebekah Lodge will meet Tuesday, Oct. 11 at 7 p. m., at the Odd Fellows hall, N. 10th St. The hostesses are Mrs. Cell Peterson, Mrs. Mary Perkins and Miss Agnes Nelson.

Martha Society
The Martha Society will meet at 8 p. m., Tuesday at the residence of Mrs. Charles Wick, 948 Sheridan Rd.

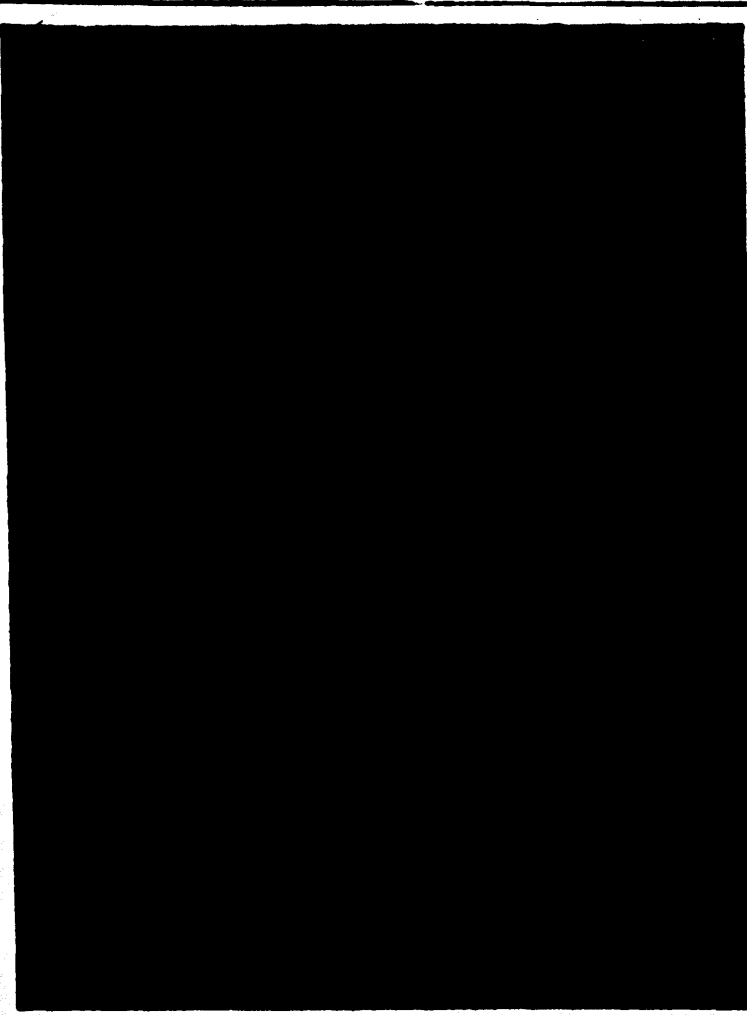

TOPS Club
The Silhouettes TOPS Club will meet tonight at 8 in Room 260 of the junior high school. Weigh-in will be held from 7 to 7:45 p. m., and the meeting will begin at 7:45 sharp. New members are welcome.

Rummage Sale
The women of St. Stephen's Episcopal Church will hold a rummage sale Friday, Oct. 14, in the guild hall beginning at 10 a. m.

Church Events

First Methodist
Tuesday, Oct. 11, 6:45 a. m. — Men's Breakfast Fellowship will meet at the Sherman Hotel. 7:30 p. m. — The Commission on Christian Education and the Church School teachers will meet at the church.

First Presbyterian
Tuesday, Oct. 11, 2 p. m. — Circles 1, 2, 3, meet at the church. 7 p. m. — Junior High Fellowship.

SIMPLY CHIC: This classic skirt-style knit dress, cut along contemporary figure skimming lines is ideal for early autumn days, is casual and very up-to-the-minute in black, winter white or pastel colors.

Four Renegades Headline Show

The Four Renegades, 1965-66 International barbershop quartet champions, will headline the 19th annual Harvest of Harmony program Saturday night at William W. Oliver auditorium.

Also appearing on the program will be The Hut Four of Minneapolis, Minn., the Mad Hatters of Sheboygan, Wis., and the Bay de Noc Barbershop Chorus.

Organized in 1957, the Four Renegades picked their name so they could change from costume to costume, however, once they appeared in their 1890 outfit the die was cast and their spats and derbies are familiar sights to barbershop audiences all over the country.

In their first appearance in S. P. E. B. S. Q. S. A. competition, they became 1957 Illinois district champions. They received medalist positions in the 1962-63-64 International competitions before winning the 27th International event in June, 1965, at Boston.

The group has recorded on the Decca label and has appeared at hundreds of barbershop shows throughout the United States.

Warren (Buzz) Haeger, the tenor, lives in LaGrange Park, Ill., and is a member of the Skokie Valley chapter. An industrial real estate broker, he is married and has two children.

Ben Williams, lead, is employed by IBM in Branch Office Administration at Oak Park, Ill., and is a member of Oak Park chapter. He is married and has five children.

Bass Tom Felgen also resides at Oak Park, but belongs to the Skokie chapter. He is married, has two children, and is employed as a marketing consultant for Canadian Consulate General in Chicago.

Jim Foley, baritone, lives in Gary, Ind., and is employed as an engineer for the Gary Division of the Screw and Bolt Corp. of America. He is married and has five children.

Births

VANDERMISSEN — Mr. and Mrs. Anthony H. Vandermis- sen of 1402 N. 22nd St., Escanaba are the parents of a son, Anthony Andrew, born at 1:09 p. m. Oct. 8. He weighed 8 pounds and 7 ounces at birth. The mother is the former Mary Cretens.

BOUCHER — A son, Jeffrey Scott, weighing 6 pounds and 2 ounces was born to Mr. and Mrs. Robert J. Boucher of 1531 N. 16th St., Escanaba at 2:41 p. m. Oct. 8. Mrs. Boucher was Alice Tolman.

DESOTELLE — On Oct. 10 at 10:01 p. m., a son, Paul David, was born to Mr. and Mrs. George W. Desotelle of N. 15th St., Gladstone. The infant weighed 8 pounds and 14 ounces at birth. Mrs. Desotelle is the former Theresa Beauchamp.

Flat Rock PT Club To Meet

The Flat Rock Parent-Teacher Club will meet Tuesday at 8:15 p. m., in the multi-purpose room of the school. It is requested that stamp project certificates be turned in at this time.

An interesting program has been arranged and refreshments will be served following the meeting by the kindergarten mothers.

Miss St. Vincent Is Recent Bride

Mr. and Mrs. Ray St. Vincent Sr. of 630 N. 23rd St., Escanaba announce the recent marriage on Sept. 8 of their daughter, Alana to Larry Arnold, son of Mr. and Mrs. Paul Arnold of Chicago.

gram will be The Hut Four of Minneapolis, Minn., the Mad Hatters of Sheboygan, Wis., and the Bay de Noc Barbershop Chorus.

Organized in 1957, the Four Renegades picked their name so they could change from costume to costume, however, once they appeared in their 1890 outfit the die was cast and their spats and derbies are familiar sights to barbershop audiences all over the country.

Delta Gamma Society Meets In Escanaba

A Tri-Chapter meeting of the Delta Kappa Gamma Society in the Upper Peninsula was held at the conclusion of the MEA Conference on Friday. A noon luncheon was served at the First Methodist Church to 48 women teachers from Houghton, Ironwood, Iron Mountain, Marquette, Menominee, Manistique, Sault Ste. Marie and Escanaba.

Program speaker was Mrs. Gunther Meyland of Marquette who told of her work with underprivileged girls in the Women's Job Corps Center at Northern Michigan University, Marquette. Mrs. Meyland showed several paintings and handicrafts done by these girls and by other adult groups.

Girl's Pet Horse Shot By Violators

It was a girl's dream, a treasured pet and a valuable animal.

Saturday it was dead, one of two horses victimized by violator's gunshots over the weekend.

State Police, Delta County Sheriff's deputies and Conservation officers were investigating the reports today. They had little information to work

with except the cruel details. Both horses had to be destroyed, one after having its jaw smashed with a rifle bullet and the other with a stomach full of what conservation officers said was either buckshot or heavy birdshot.

Bin Ben, an Arabian filly, was the pet of Janice L. Johnson, 14, daughter of Mr. and Mrs. Delbert Johnson, 1705 10th Ave. S. Janice, who had groomed, watered and fed the horse daily, hoped to ride her for the first time next summer.

Saturday, the horse was found in a field at the Don Saykily farm on the Old State Road where it was kept. Two veterinarians were called, but were unable to do anything. The shotgun, they indicated, had been fired at close range.

The second horse was owned by Jarvis Blazek of Bark River. It was believed to have been shot in the jaw after 1 a. m. Sunday when mistaken for a deer by violators in Bark River Township, about 16 miles south of Escanaba.

Again, veterinarians said nothing could be done.

Two horses shot. Two horses dead.

Authorities wondered if the triggermen were proud of themselves.

Boy, 15, Wounded By Shotgun Blast In Hunt Accident

A 15-year-old boy who was struck in the neck, face and left eye by shotgun pellets fired from his 17-year-old brother's gun in a hunting accident Sunday apparently will not lose sight in his eye, the attending physician said today.

Hospitalized is Richard Newhouse, son of Mr. and Mrs. Edwidge Newhouse of Carroll's Corners.

Dr. Carl Olson of Gladstone said that it does not appear that Richard will lose sight in the eye.

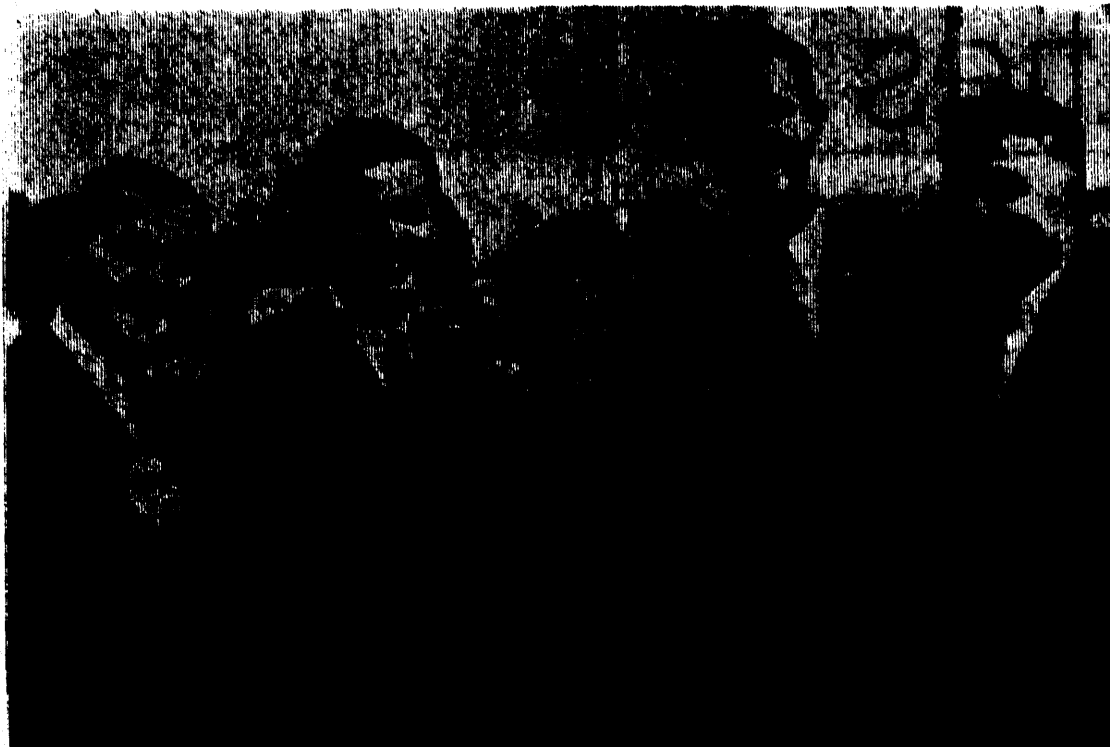

The accident happened Sunday afternoon near Perkins. The gun was fired by Joseph Newhouse, 17. Sheriff's officers are still investigating.

BACKACHE & TENSION SECONDARY TO AFTER 21, common kidney or bladder irritations affect twice as many women as men and may make you tense and nervous from too frequent, burning or itching urination both day and night. Secondly, you may lose sleep and suffer from frustration, headaches and feel old, tired, depressed. In such irritations, GYTAX usually brings fast, relaxing comfort by soothing irritating germs in strong, acid urine and by analgesic pain relief. Get GYTAX at drugstore. Feel better fast. Adv.

CAMPAIGNING FOR ELECTION as Republicans in the Nov. 8 voting in Escanaba at the Escanaba-Alpena football game on Saturday afternoon were: Charles Varnum, Manistiquic, for 107th District representative; Lieut. Gov. William G. Milliken; Mrs. Carl Olson, Gladstone, of the Delta County Republican Committee; Philip Ruppe, Houghton, 11th District Congress nominee, and Arthur A. Neiman, Delta County Republican chairman. (Daily Press Photo)

Lieutenant Governor Campaigns Here

Senate Key Race: Milliken

Lieut. Gov. William G. Milliken flew into Escanaba Saturday afternoon and campaigned for re-election for several hours and flew on to St. Ignace for a night meeting in a blitz tour of the Upper Peninsula.

With him in Escanaba were Philip Ruppe, of Houghton, Republican nominee for Congress in the 11th District, Charles Varnum of Manistiquic, Republican nominee for state representative in the 107th District, and James O'Neill, one of the two Republican nominees for the State Board of Education.

Highlight of the campaign visit was the appearance of the candidates at the Escanaba-Alpena football game at Escanaba Athletic Field.

In a campaign talk at the Escanaba Airport Milliken said "The Upper Peninsula and the top of the Lower Peninsula have given us an excellent reception on this tour. We are talking about the issues and I think they're clear — they are our record for the past four years at Lansing. We believe that the people approve of the directions and leadership that Governor Romney has given us and on that basis we intend to win in the Nov. 8 election. "We have been on tour for two days and Gogebic County, which is rather traditionally Democratic, we have had an excellent response. There has been frank recognition of the support we get from a number of people who call themselves independents.

"We expect labor to be divided in the election since we have had a job well done, why should there be a change. This is no hard and closed situation. We are taking nothing for granted and the Governor and I are working harder than we did even two years ago.

"The U.S. Senate race is the key race. They have been trying to bar Senator Griffin, but I think that labor resents an effort on the part of its leaders to draw a curtain on full and open discussion of the

campaign issues. They may not vote with us, but they do want a free discussion of the issues."

Philip Ruppe said "I'm glad to join Governor Romney and Lieut. Gov. Milliken in a team effort to expand Northern Michigan's economy.

"I would like to join the joint effort to solve the high tolls on the Mackinac Bridge. They have got to be solved for our economic development. If

we're going to share fully here in the U.P. in the \$1 billion state tourist industry we have got to have equal treatment for tourists.

"Our farmers haven't had their share of the national income, either, and they are in no way responsible for high agricultural prices. They have been caught in the price squeeze as much as the consumer."

Catholics Told To Tie Up With Public Schools

"In the vast majority of cases the Michigan public schools have been extremely cooperative and have gone out of their way to provide services to the non-public school children," John Gaffney, director of the Education Department of the Michigan Catholic Conference told the closing session of the U. P. Catholic Educational Association convention in Holy Name High School, Escanaba, Friday afternoon.

Gaffney told the teaching sisters and administrators of the Upper Peninsula's 33 Catholic high schools and 33 elementary schools that there is a new era of good will and cooperation between the public and private schools of Michigan and that they must make an active contribution to it.

Must Discover Each Other

"Every one of our schools needs to get together with the public school people," said Gaffney. "We need to develop the finest kind of rapport and good will. It is essential for our children. One metropolitan school district was going to pass up \$85,000 in federal aid for equipment because the principal and sisters were too busy to identify the children in need. This is an example of non-cooperation by a Catholic school.

"You may have to work on public school committees to show how knowledgeable you are, although this is not so true in small cities. We must discover each other and learn that each has something to offer to the other. We have some excellent educators and you'll find that they can be of great help to you."

Gaffney said that one of 7 Michigan school children today goes to a private school, and that the new legislative programs like the federal Elementary and Secondary Education Act make closer cooperation between public and private school systems necessary. Working Out Well

Overall, he said the E & SE Act has worked out well. All

school system and the act mandates that it provides services for the non-school child.

Where the aid doesn't get through to the Catholic school student, said Gaffney, it is probably not necessarily the fault of the public school administration. "Primarily the problem is one of finding an appropriate kind of program for which non public school aid can be used. The public schools can do almost anything with this aid, but the Catholic schools can get aid for only specialized kinds of services outside the realm of regular school program.

"Under Title II of the E&SE Act every child is figured in and it doesn't matter where they go to school. This provides materials for our libraries and such aids. But under Title I programs which benefit the regular classroom studies can't be approved for non-public schools; they must all be specialized."

Gaffney said that the public schools' aid to the non-public schools in such programs was made more difficult by their own problems, like staffing, with 600 teachers short in Michigan schools when they opened this fall. There are 300,000 Catholic school children in Michigan and there are more of them in Detroit than in the entire Upper Peninsula.

One of the major problems in providing service to the Catholic school child, said Gaffney, is the shortage of qualified personnel. The public schools are trying to be cooperative, but they don't have the personnel.

Michigan Catholic schools limited their first grades this fall to 40 students per class. "While making for an atmosphere for better instruction," said Gaffney, "this limits the number of incoming first graders. And there are 2,000 fewer 1st graders in Catholic schools in Michigan this fall than last fall."

Obituary

ALICE JOHNSON

Complete funeral services for Alice Johnson were held at 11 a. m., Saturday at the Anderson Funeral Home with the Rev. Philip Lyon officiating. Burial was in Lakeview Cemetery.

75 Years Old

DETROIT (AP)—The 75th anniversary celebration of Detroit Institute of Technology will be held tonight in Cobo Hall at Detroit.

NOTICE TO ESCANABA TAXPAYERS

October 15, 1966 is the last day for paying City Taxes for the year 1966 without penalty. A penalty of four percent (4%) will be levied after that date.

Office Hours: 9:00 a.m. to 5:00 p.m. except Saturday and Sunday.

Mrs. P. Winters Taken By Death

Mrs. Helen M. Winters, 81, of 1018 N. 18th St., Escanaba, died at 11:44 a.m. Saturday at St. Francis Hospital where she had been a patient for three months. She was born April 9, 1885 in Saginaw.

She is survived by her husband, Percy of Escanaba; three sons, Chauncey Benson of Iron River, William H. and Ralph of Escanaba; one daughter, Mrs. Gerald (Lillian) Heip of Escanaba; one sister, Mrs. Mary LaRouche of Iron Mountain, 12 grandchildren, 20 great grandchildren and four great great grandchildren.

Friends may call at the Anderson Funeral Home after 4 p.m. today and liturgical prayers will be recited at 8 p.m. today. Funeral services will be conducted at 10 a.m. Tuesday at St. Thomas Church with the Rev. Arnold Thompson officiating. Burial will be in Gardens of Rest Cemetery.

School Board Meets Tuesday

The Escanaba Area Board of Education will have a cheerful assignment on its agenda Tuesday when it meets in regular session at 8 p.m. at the school administration building.

Scheduled for action on the agenda released by Supt. Luther M. Barrett today is final payment on the 1966 Ford River Township bond issue.

In other business, the Board will consider school use of welfare employment training under a federal program, discuss an increase in salary for driver education instructors and set date for opening of bids on the proposed new Washington School and the Junior High school boiler plant.

Supt. Barrett has also listed a review of the 1966 building and site fund, the athletic budget, a request for joint meeting of the Escanaba Area and Bark River-Harris Boards of Education, and hours for cooks for discussion.

WITH IC HEV-E-DUTY POWER GAS BURNERS

More and more cost conscious people are switching to gas heat . . . And when they do, they specify and install Industrial Combustion HEV-E-DUTY Power Gas Burners. IC burners are in use throughout the world with a fine record of savings and performance. Whether you plan to build or convert, remember, IC burners can be easily installed in existing furnaces and boilers. Whether you make the heating decisions for supermarkets, apartments, schools or commercial buildings — IC burners give you the quality and savings you can bank on.

IC Delta Furnace Company
304 Ludington Street
Escanaba, Michigan 706-1510

- Gas heat ends storage and delivery problems.
- Gas heat costs less
- IC Gas Burners operate automatically and are easy to maintain
- Easily installed in your present heating plant

Office Hours: 9:00 a.m. to 5:00 p.m. except Saturday and Sunday.

ONALD J. GUINDON, CITY TREASURER

More Women In Jobs Than Ever

By JOHN CUNIFF
NEW YORK (AP)—More women are working today than ever before—more even than in 1944, when Rosie the riveter produced whistles, stars and airplanes.

The percentage of women who work has been moving up gradually, from 31 per cent of working age women in 1947 to more than 38 per cent now. The trend lately has been pronounced.

In the past year more women than men were added to the civilian work force, a total of 578,000 compared to a total of 559,000 for men aged 20 or more.

This is what it reflects:

- A change in the nature of many jobs from factory to office, from blue collar to white. Perhaps it would be better to call her Miss Jones now rather than Rosie.
- The scarcity of employable men, which has forced industry to look more aggressively for women workers.
- The philosophy and laws of equal opportunity, which bar discrimination because of race, religion or sex.
- More education for women, greater skills and the desire to utilize them after the children are in school; or, to pay for the education of the children. More than one-half the number of

women in their 40s and 50s are employed.

- Adjustable hours. The growth of agencies that lease part-time workers to industry has permitted many women to choose their hours. And part-time teachers and nurses are in demand.
- More efficient homes, where egg beaters and can openers and knives are powered, where stoves are controlled from consoles, where freezers stock food for months ahead, where recipes are scientific.
- The pill, or birth control.
- The war. The armed forces have stripped more than 480,000 teen-agers or working age men from the potential civilian employment pool in the past year.
- A study by the First National City Bank of New York found some of these factors also have improved the work chances of teenagers. The teen-age labor pool is a big one now, expected to grow by 900,000 this year. Although its history has been erratic, teen-age unemployment is now lower than a year ago.
- Another factor that could induce women to go back to work is inflation. Housewives especially have been aware of the sharp rise in the price of food and services.
- Short-term factors such as

North Korea Calls Volunteers For Viet Nam Fight

TOKYO (AP)—North Korea's strongman appealed to all Communist countries to dispatch volunteers to Viet Nam as a move to oppose the United States and restore unity to the divided ranks of world communism.

He said North Korea's volunteers were ready to go, waiting only for a request from North Viet Nam to be on their way, but he indicated that he felt they should go with volunteers from other Red lands.

The plea for the dispatch of volunteers to the embattled Communists in Viet Nam was made by North Korean Premier and Communist party boss Kim Il Sung in a major report to a Communist party conference that opened in Pyongyang, the North Korean capital, today.

Most Communist governments have offered to send volunteers to Viet Nam whenever the North Vietnamese ask for them, but North Viet Nam has shown no inclination to make such a request. However, Kim did not just offer to send volunteers; he argued that they should be sent.

Inflation cannot, however, account for a long-term trend that shows women leaving the home in the morning and returning in the evening—a routine once thought typically male.

GETTING A LIFT to a prison stockade, a Viet Cong tax collector, clad in sporty hat, silk shirt, pin-striped slacks and blindfold, rides with troops of the U.S. 173rd Airborne Brigade. South Vietnamese villagers led the paratroopers to a Red tax collection point where thousands of dollars worth of goods, as well as the tax collectors, were captured.

Human Error Is Blamed In Crash Near Cincinnati

WASHINGTON (AP)—The Civil Aeronautics Board blamed human error recently for the Boeing 727 crash in which 58 persons were killed near Greater Cincinnati Airport last Nov. 8.

It said the probable cause was what it called failure of the plane's crew to monitor the altitude-measurement instruments properly during the approach to the airport at Covington, Ky.

The board noted that a 727 had been involved in three other fatal accidents within a six-month period, on landing or on the start of a gradual approach to a landing—in Lake Michigan on approach to Chicago Aug. 16, 1965, all 30 killed; at Salt Lake City, Utah, Nov. 11, with 43 deaths and 48 survivors; and in Tokyo Bay, Feb. 4, when 133 were killed.

But it said that with regard to the Cincinnati crash, the "727 flight characteristics were not a factor."

At the same time the board stressed that because the 727 is highly responsive and versatile, these favorable qualities may be misleading to the pilot or might give the impression that greater liberties may be taken with that type of plane than with others, especially in normal approaches and landings.

GLADSTONE

Eaton Yale & Towne, Inc.

When Eaton Yale & Towne acquired the original plant in early 1965, it had 17,000 square feet of manufacturing and office space and employed eight workers. And immediate expansion raised the floor space to 35,000 square feet, and employment to around 50 people.

The latest expansion, which will be dedicated in ceremonies to be held Oct. 11, has added another 100,000 square feet of manufacturing and office space to take care of the rapidly expanding demand for sheaves and pulleys. The new facility for Eaton Yale & Towne's Mechanical Power Transmission Division will mean an estimated additional expenditure of about \$5 million annually by the company in Gladstone.

Eaton Yale & Towne supplies parts and products for trucks and off-highway vehicles; industrial, marine and consumer products; locks and other builders' hardware; materials handling and construction equipment; and automobile parts and accessories.

Fred L. Hopf, general manager of Eaton's Dynamic Division at Kenosha, Wis., adds, "We have received fine cooperation from the city, county, and the union and citizens of Gladstone, and we look forward to continued good relations with all of these people."

Job's Daughters, Bethel 7, will hold a regular meeting at the Masonic Temple at 7 p.m. today.

Dearborn Votes On Viet Pullout In Nov. 8 Ballot

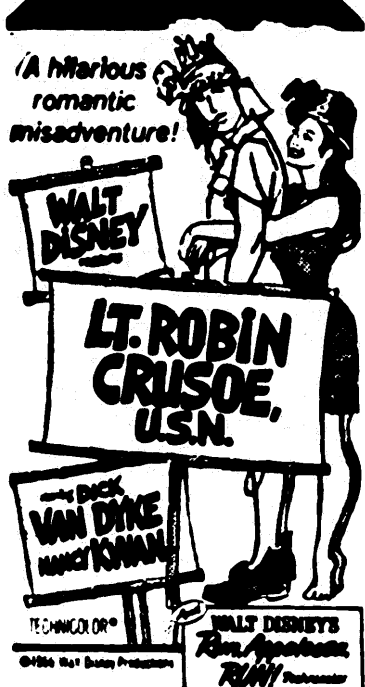

DEARBORN (AP)—Whether U. S. troops should pull out of Viet Nam will be put before voters in this Detroit suburb of 112,000 residents in the Nov. 8 general election.

The City Council approved the proposal 6-3 in a stormy debate. Mayor Orville L. Hubbard, who made the original suggestion, termed the ballot "an advisory referendum."

The 63-year-old Republican, now serving his 25th year as mayor, said he personally opposes America's involvement in Viet Nam and felt the referendum would serve as "an excellent way to get an expression of how at least one group of people in this country feel about the war."

Hubbard, a political maverick who sometimes has supported Democrats, said he hopes the idea catches on in other U. S. communities.

Medias, Romania, has a leaning tower (Tower of Trumpets) dating from 1450.

Michael F. Grenier, 19, of 2101 8th Ave. S., Escanaba was charged by State Police with being a minor in possession of beer at 12:35 a.m. Saturday. He was arrested on the Old State Rd., troopers said, and was ordered to appear before Justice Ross Davis of Gladstone.

State Police are investigating damage to a boat owned by Harry Sherwood of Rapid River. Sherwood reported that someone pounded a hole in the bottom of an aluminum boat at the boat landing in Rapid River.

Karen A. Robinson, 17, and Nadine Robinson, 15, both of Marquette, were slightly injured but not hospitalized when a car in which they were riding rolled over at 10:45 a.m. Saturday on U.S. 41 in Masonville Township. Karen Robinson, who was driving, told police she lost control of her car when she swerved to avoid a deer. Two other motorists struck deer, troopers said, Elizabeth Norkoli, Rock, on M-35 Sunday in Baldwin Township and Alice M. Laurich, Rte. 1, Rapid River, on U.S. 41 in Masonville Township Sunday.

State Police issued traffic summonses over the weekend to Anthony R. Fadroski Jr., Rte. 1, Cornell, no log book and speeding; Karen A. Robinson, Marquette, and Clarence R. Seymour, 327 N. 13th St., no proof of insurance; James E. Noel, 7 S. 3rd St., no operator's license; Walter G. Hamilton, 1100 7th Ave., S., Escanaba, driving without headlights; Otto J. Drossart, Wells, driving left of center; Glen M. Schoen, Hermansville, and Lawrence L. Townsend, Rte. 1, Gladstone, no proof of insurance; Barbara C. Baum, 616 S. 11th St., Escanaba, no operator's license and no valid registration plates; Duane F. Thorbahn, 1010 Michigan Ave., no insurance and improper registration plates; Donald J. VanEnkevort, Rte. 1, Bark River, violation of basic speed law, too fast for conditions; Joe J. Ratkovich, Bay View location, no registration or proof of insurance.

Ten Ton Street Roller Stolen

MEXICO CITY (AP)—A pavement roller weighing 10 tons and worth more than \$3,200, was stolen recently from a street where it had been parked for the night.

Contractor Enrique Aceves Aguayo said the machine was left in a street where pavement was being repaired, with a night watchman in charge.

The watchman said "some men" had started the engine and rolled away. And he was not able to stop them.

Police arrested the watchman for investigation.

War On Crime Gets Slow Start

DETROIT (AP)—The Detroit Police Department's war on crime got off to a slow start recently.

Within hours after a departmental announcement of a beefed-up staff in the Holdup Bureau to quell a rash of crime, five businesses, including three banks, were robbed.

More than \$4,000 was taken in three bank holdups within a three-hour period. Police reported a \$200 pickup at a loan company and a \$220 robbery at a bakery.

MONUMENTAL backdrop for Annick Loisel is a landmark of her new domain. The new "Miss Ile de France," who will represent the district surrounding Paris in December's "Miss France" contest, uses the Eiffel Tower as a prop for a campaign photo.

Wallace's Aim Is White House

MONTGOMERY, Ala. (AP)—"I'm not only against Lyndon B. Johnson," says Alabama's Gov. George C. Wallace. "I'm against Richard Milhous Nixon also."

Thus Wallace, campaigning for his wife to succeed him, has set the stage for another presidential venture. And he has answered Republican critics who have sought to tie him, through party identification, to President Johnson's administration.

Johnson's demonstrated unpopularity in Alabama has become a major issue in a race which will give the state its first woman governor in history or its first Republican governor in almost a century.

Wallace's wife, Lurleen—running as a standin for her husband because he is prohibited by law from succeeding himself—is a heavy favorite to defeat her GOP opponent, Congressman James D. Martin, and an Independent, Dr. Carl Robinson, in the Nov. 8 election.

Martin says his own polls show Mrs. Wallace's margin is narrowing. Wallace, a symbol of segregationist resistance in the Deep South, is counting heavily on his defiance of federal desegregation orders to put his wife into office. Again and again, as he speaks in her behalf, he has promised an unending struggle for "the right to run our own affairs."

Ford Of Britain Has Luxury Car

LONDON (AP)—Ford, of Britain today unveiled its newest car "for top people, a 100 m.p.h. sedan called the Executive.

Described by publicity men as the most luxurious model ever produced by the Dagenham Factory, the executive is a lavish version of the Zephyr-Zodiac Mark IV announced earlier this year.

It has fully automatic transmission, adjustable power steering, a steel sliding sunroof, fitted safety belts. Even the luggage trunk is carpeted. Suspension is fully independent both front and rear and power operated disc brakes are fitted to all four wheels.

The cost in Britain is \$4,287, including a 25 per cent domestic sales tax.

Pakistan Cyclone Kills 5,000 People

DACCA, Pakistan (AP)—An estimated 5,000 persons were killed—many of them swept into the sea—in the cyclone which struck low-lying areas of east Pakistan and its offshore islands last week, according to unofficial reports reaching Dacca.

A divisional commissioner, reached by telephone, said pounding seas did most damage, leaving some areas under eight to 10 feet of water.

Death Drivers

BOSTON (AP)—Drinking was a factor in most of the fatal, single-car accidents in Massachusetts this year, says an insurance firm representative.

Dr. George W. Wheatley, senior medical officer of the Metropolitan Life Insurance Co., said a study showed excessive drinking figured in 78 per cent of the 50 single-car fatalities between Jan. 1 and the end of September.

Moscow Has No Desire To Grow

MOSCOW (AP)—Moscow is one big city that doesn't want to get bigger. The government intends to stabilize the population at the present 6.5 million. It is allowing no new industries to come in. It discourages labor from migrating here.

This is all part of an ambitious plan to make the Soviet capital "the most beautiful city in the world."

Models of the future city show whole sections laid out as units, with skyscrapers spaced far apart, winding lines of lower buildings and lots of parks.

The government is no longer content with the brick boxes that Nikita S. Khrushchev favored in his crash construction program.

The director of Moscow's Institute of Standard and Experimental Design, L.K. Dyubek, says, "Buildings should please the eye, decorate the city and give the people a maximum of convenience."

Apartment houses used to be largely without elevators and no more than five stories high. Now 15-17 stories are preferred, and as many as 22 stories are being tried.

Conveniences common in Western cities are being introduced at a fast rate. There are to be a million and a half telephones by 1970, or one for every two apartments, and twice that number before the decade is out.

Nobody in authority pretends that all the plans will be achieved in a hurry. There is still a lot to be done to bring housing up to even minimal standards in some districts.

But the plans at least have been drawn up and the government has committed itself to carrying them out.

New City Has A New Police Chief

WESTLAND (AP)—Former Dearborn safety director Garrison Clayton has been hired as the first police chief of Westland, the Detroit metropolitan area's newest city. Clayton, 47, resigned from the Dearborn post last month.

Farm Prices Dip

LANSING (AP)—The index of prices received by Michigan farmers in September was down 2 per cent from the August level but 19 per cent above the figure for September, 1965, according to the Michigan Crop Reporting Service. The index last month was 270 per cent of the 1910-14 base level.

standards in some districts.

But the plans at least have been drawn up and the government has committed itself to carrying them out.

U.S. Seeks Second Nuclear Testing Site In Nevada

LAS VEGAS, Nev. (AP)—The United States wants a second chunk of loneliness in the middle of the Nevada desert to test its arsenal of nuclear weapons.

It already has one—the 1,300-square-mile Nevada atomic test site 100 miles northwest of Las Vegas, which embraces such desolate places as Jackass Flat, Frenchman's Flat, Yucca Basin and Yucca Flat.

The area is honeycombed with plugged-up vertical shafts. At the bottom of each, the AEC explodes its atomic weapons and carefully measures their impact with electrical devices.

The agency announced Friday it was searching for a spot in central Nevada for another underground test site to combine with its present facility—but the two won't be contiguous. More than 6,000 persons are employed

Soviets Term Tour 'A Stunt'

LONDON (AP)—Moscow Radio, in an English-language broadcast, has called President Johnson's impending tour of Southeast Asia "a propaganda stunt" linked with American congressional elections.

The broadcaster predicted the President would ask United States "satellites" to contribute more to the war effort and add:

"But in view of the growing movement against complicity in aggression Johnson's trip will not be a bed of roses."

at the present site with a multimillion-dollar budget. There was official doubt the second site would grow as large.

The entire operation at the present site includes testing in the Plowshare program for development of peaceful uses for atomic explosives and experimental runs of the government's nuclear rocket engines.

Northern's Wildcats Bomb Central Outfit

MT. PLEASANT — Northern Michigan broke a four-game losing streak away from home Saturday afternoon, whipping Central Michigan 35-14 before 8,000 Dad's Day fans at CMU's Alumni Field.

Quarterback Rich McCarthy (Kingford), making his first start of the season, put Northern ahead 14-0 with touchdown passes of 38 and 26 yards to split end Jesse Jenkins (Riverview). The 'Cats upped their lead to 21-0 at halftime when Les Wilson (Rickford, Ill.) capped an 80 yard drive with a four yard scoring burst late in the second period.

Central scored early in the third period after recovering a Northern fumble on the second half kick-off. Bob Rosso cracked over from the five, cutting the Wildcat lead to 21-7.

Another Central threat was stopped on the NMU five later in the third quarter, but early in the final period CMU drove 60 yards for their second tally. Rosso pulled over from the one and Bruce Cameron's second PAT made it 21-14 with 11:51 to play.

Jim Lindstrom (Iron Mountain) put the game on ice at the 5:22 mark, scoring from the five following a fumble recovery on the Central nine.

Forty-seven seconds later

formation but threw a flat pass instead, getting the first down and setting up a one yard touchdown plunge by halfback Ray Kinnunen. That made it 12-0 and the Mustangs held on for their fourth victory in six starts this season.

Coach Don Pfothauer's Braves battled back in the fourth quarter but were unable to get inside the Munising 25. The Mustangs put Gladstone in an early hole when they returned the opening kickoff 70 yards to the 10. Tom Gatiss chucked a scoring pass to Dan Kriekard in the end zone to put the home team ahead, 6-0. Gladstone fired right back with a 65 yard touchdown drive. Mike Damitz hooked up with Jim Swenson on a 20 yard payoff pass to tie the score at 6-6. Neither team was able to mount a serious scoring threat in the remainder of the half.

The battle of the statistics showed Gladstone with 125 yards rushing to 118 for Munising. The Braves picked up 68 in the air to 36 for the Mustangs. Mike Maniaci led Gladstone on the ground with 43 yards in 13 carries while Gary Larson pounded out 39 in the same number of trips. Dan Pepin picked up 37 in seven carries. Larson was the outstanding figure in the game on defense, nailing enemy runners 21 times. The Braves chalked up 11 first downs to Munising's seven. Gladstone punter Dick Frisk booted only once in the game and got off a 54 yarder.

PAUL MILLER (84), Escanaba halfback, shows his running form in the game against the Alpena Wildcats here Saturday. The 6 foot 1 inch, 175 pound senior, converted from an end, scored the lone touchdown of the game as the Eskymos registered a 6-0 victory over their downstate opponent. (Daily Press Photo)

Eskymos Slip 6-0 Loss To Downstate Grid Foe

The Escanaba Eskymos ran their victory string to three games and climbed over the .500 mark for the season by stalling a highly ranked Alpena Wildcat crew, 6-0, in a Parents' Day clash at the EHS field Saturday.

Alpena invaded the Esky gridiron fresh from a great stand against the No. 1 team in the state, Bay City Central, in which the Wildcats bowed by a 28-18 margin.

The Eskymos threw the press clippings out the window and mustered an outstanding defensive effort to blank their downstate foe.

Esky Dominates Game
Alpena was able to put together only two major scoring threats in the first half and couldn't get past the 50 yard line in the last two periods.

Although the Eskymos dominated all phases of the battle, they were frustrated time and again when they got within striking distance of Alpena's goal line.

Aside from an 84 yard scoring drive late in the first quarter, the Eskymos gave up pos-

session of the ball on downs on the Alpena 12, 11, 25, 15, 30, 16, 11 and 27.

Alpena, on the other hand, reached the Escanaba 5 yard line early in the second quarter for its most serious threat of the game.

Olsen Is Starter
The Eskymos used two newcomers extensively in their ground game with halfback Paul Miller picking up 56 yards and the game's lone touchdown on a one yard plunge. Jim Olsen, a sophomore fullback, carried the ball 12 times for 32 yards. He played in place of Jerry Brazeau who missed the game because of illness.

In addition to their 101 yards on the ground, the Eskymos got 137 in the air on four completions in 13 attempts.

Alpena gained 135 yards rushing and 77 passing on eight of 21 completions for a net of 212. Fullback Russ Courtney set the running pace with 78 yards in 10 trips.

Open With Bomb
The Eskymos went with a bomb on their first play from scrimmage with quarterback Jim Boyle lofting a long pass to Miller who was tackled on the Alpena 13. The Eskymos fumbled the handoff on the next play, however, and Alpena recovered on its 12.

Miller then swiped a pass thrown by Alpena's Tom Kowalski but Boyle was jarred loose from the ball on the next play and Alpena had it again at midfield.

The Wildcats then drove to the Esky 16 before a fine defensive play by Marty Oslund stymied the drive.

Touchdown Drive
Escanaba's touchdown march followed with Miller, Olsen, Dan Mylander and Boyle moving the ball. Boyle set up the TD with a five yard keeper to the one foot line from where Miller belted over. The kick for the point was deflected by Courtney.

A 58 yard pass play from

Boyle to Miller highlighted Escanaba's drive that reached the Alpena 12 yard line in the second quarter. Miller went high in the air to take the ball away from Alpena's Jim Smith and broke for the goal line. He was tackled from behind by Steve Kearly on the Alpena 14. Boyle was smeared for a 17 yard loss trying to pass and then hit Miller with a 17 yard toss to get it back but the Eskymos were unable to pick up a first down.

Marinette Next
Mylander intercepted a Kowalski pass late in the first half and the Eskymos drove to the 15 before again losing the ball on downs.

Bruce Craig and Butch LaBay recovered Alpena fumbles to put the Eskymos in scoring position twice in the second half and the Eskymos got their third pass interception when John Mileaski picked off a Kowalski aerial on the Escanaba 32 with five seconds remaining in the game.

Escanaba returns to action in a Homecoming clash against Marinette Saturday.

49ers Win, 21-20

Packers Upset On West Coast

By The Associated Press
San Francisco Coach Jack Christiansen thinks some people might want him to make a half-back out of quarterback George Mira. Some people are wishful thinkers.

True, Mira did run well against Green Bay Sunday. But he also called a good game, faked well and threw two touchdown passes as the 49ers upset the Packers 21-20 and dropped them into a first-place tie with Los Angeles in the National Football League's Western Conference.

Los Angeles gained a tie with Green Bay at 4-1 by defeating Detroit 14-7, while St. Louis and Dallas remained unbeaten in the Eastern Conference — St. Louis scoring a comeback 24-18 victory over the New York Giants for a 5-0 record and Dallas blasting Philadelphia 57-6 for a 4-0 mark.

Chicago beat Baltimore and Washington whipped Atlanta 33-20 in other Sunday games. Cleveland trounced Pittsburgh 41-10 Saturday night.

Mira, starting in place of \$700,000 quarterback John Brodie who has a groin injury, got the previously winless 49ers a 7-0 halftime lead by throwing a 27-yard touchdown pass to John David Crow.

Then with the 49ers leading 14-13 in the fourth quarter, Mira hit Crow with an eight-yard TD pass after setting up a score with a 38-yard run.

Los Angeles got two touchdowns from Tom Moore and a tough defense in beating Detroit. Moore scored on a four-yard run in the first quarter and

combined with Roman Gabriel on a 30-yard TD pass in the fourth before Detroit scored.

It looked as if St. Louis was headed for its first defeat and New York for its first victory until Charley Johnson hit Billy Gambrell with a fourth down, 30-yard scoring pass in the closing minutes of the game.

In Dallas, there was no mention of turning Don Meredith into a halfback as the Cowboys' quarterback led the rout of Philadelphia with 19 pass completions in 26 attempts for 394 yards and five touchdowns. Bob

Haves caught three of the TD tosses.

Gayle Sayers scored on runs of 30 and seven yards and Joe Fortunato and Bennie McRae led a fired-up Chicago defense against Baltimore. Fortunato ran 24 yards with a recovered fumble for a TD, and McRae intercepted two Johnny Unitas passes and batted at least three others out of receivers' hands.

Washington scored its third straight victory and made new Atlanta 0-0-5 as Charley Taylor scored on a 12-yard run and again on an 86-yard pass play.

Broncos Win, Too

Tigers Collect Fourth Victory

Saturday Results
Powers 38, Pembine 0
Bark River 32, Rock 6
Games This Week
Rock at Powers
Bark River at Pembine

The Powers-Spalding Tigers extended their season victory string to four games Saturday by disposing of Pembine, 20-0, in Wolverine Conference action.

Bark River-Harris, whose only loss was to Powers in the season opener, kept tight on the Tigers' heels by trimming Rock, 32-6.

Coach Tom LeQuia's Tigers threw up a stubborn defense that held Pembine to five yards rushing and 18 passing.

Quarterback Tom Smith had a hand in all three Powers TDs. He hit Scott Reidy with a 45 yard scoring pass in the first quarter and hit paydirt on runs of 5 and 3 yards as the Tigers scored all their points in the first half. Eugene Folcik ran for two conversions.

Powers rambled for 132 yards on the ground and Smith hit on 7 of 18 passes for another

110. Tom Pipkorn set the rushing tempo with 53 yards in 11 carries.

Jerry Olson racked up three more touchdowns for the Bark River Broncos. He dented the Rock goal line from the 7, 24, and 33 as Bark River rolled up 203 yards on the ground.

Pat Sagataw latched onto an eight yard TD pass from his brother, Terry who completed five of 14 tosses for 61 yards in all.

Bark River's first touchdown came on a 33 yard run with an intercepted pass by Felix Sacheck in the first quarter. The Broncos tacked on two conversions on passes from Sagataw to Ed Falka.

Rock gained 32 yards rushing and 10 passing and the Little Giants scored their lone touchdown in the third quarter.

Eagles Suffer First Defeat

ENGADINE — The Engadine Express was derailed by downstate Potoskey St. Francis, 6-0, in a nonconference contest here Saturday.

Coach Red Carlson's Eagles fashioned five straight victories before taking on the once-beaten Potoskey crew.

The lone touchdown of the game came late in the first quarter when Potoskey's Tom Gilles connected with Archie Kowalski with a 19 yard pass.

Engadine was unable to get a drive going in the first half and reached Potoskey's 35 for their deepest penetration in the third quarter.

The Eagles had one chance to pull it out with eight minutes left in the game when Jack Archie intercepted a pass and raced 78 yards to the Potoskey end zone. The touchdown was nullified by a clipping penalty, however.

The Eagles gained 65 yards rushing and 32 passing. Engadine hosts Pickford in an Eastern Conference game Saturday.

Rams Pick On Newcomer To Scoring Winning TD

DETROIT (AP) — "We were intentionally going at (Wally) Hilgenberg when we learned (Wayne) Walker was out," said George Allen, coach of the Los Angeles Rams.

The strategy paid off in the winning touchdown, scored when Tom Moore beat the third-year Hilgenberg on a 30-yard pass play. The Rams downed the Detroit Lions 14-7 in a close-fought National Football League game Sunday.

Hilgenberg, usually a middle linebacker, was replacing the injured All-Pro Walker in the second period.

"The play was set up with Jack Snow going down and in and he picked up two defenders. That left me one-on-one against Hilgenberg and I beat him," Moore said.

Roman Gabriel spotted Moore alone at the sidelines on about the 25 and dropped a pass in his arms. Moore sprinted over untouched.

Walker, who hurt his left elbow last week, injured his right elbow against the Rams early in the game.

"We missed a lot of opportunities," said Lion Coach Harry Gilmer.

"We had figured we could run better than we did against them

but their big four shut us off pretty good," he said.

Starting from their rane in the first period, the Rams drove 91 yards for a touchdown. Dick Bass figured in four plays and got a total of 55 yards in the drive. He ran 30 yards from the line to start things moving and later caught a pass for another 16 yards.

"That Bass is something, how many yards did he get?" Gilmer asked after the game. The answer was 139 on 23 tries.

In the third period, Lion quarterback Milt Plum hit Tom Nowatzke with a pass, but he fumbled and Ed Meador recovered on the Lion 48.

The Lions drew a penalty for grabbing a face mask. Bass flitted 11 yards to the 30 and Gabriel hit Moore for the TD.

Late in the third period the Lions started a 76-yard touchdown drive that took them 15 plays as Nowatzke gained 36 yards in seven carries. But the key play was a 28-yard pass from Plum to Pat Studstill, who made a circus catch, fell, jumped to his feet and picked up another yard or two to the Ram 37. Nowatzke got the touchdown as the fourth quarter opened with a three-yard burst over left tackle.

Gabriel fumbled and Alex Karras recovered for the Lions on their own 45 late in the game. Maxie Baughan promptly picked off a Plum pass on the Ram 36, but Dick LeBeau intercepted a Gabriel pass on the Lion 45 and returned it 18 yards.

Studstill made another brilliant catch on the 30 for a 23-yard gain and a Lion first down, but a few plays later the Rams' Clancy Williams intercepted a Plum pass on the 14 and returned it 26 yards to the 42, killing the final Detroit chance for a tie.

Detroit blew a chance to score in the second period when Plum hit Studstill in the open and he raced 63 yards from the Lions face to the Ram 32. Williams hauled him down and Studstill lost the ball, with Milt Cross recovering for the Rams.

"He sounded like a freight train coming up behind me and I could hear him breathing heavily," Studstill said of Williams. "I knew I could not outrun him for he is real fast, but I did think that I could outmaneuver him ... Clancy tackled the ball, not me ... he was supposed to be pretty quick and he proved it to me ...

"It was just one of those days, I guess," Studstill said.

Orioles Win Four In Row To Destroy Baseball Myth

BAITMORE (AP) — Outside Memorial Stadium, on one of the approaches to the ball park, a big, bold sign asks the question: "Would you believe four straight?"

The sign belongs to the city of Baltimore and so does the World Series following the Orioles' amazing—and convincing—four-game sweep of the Los Angeles Dodgers.

But now a bigger question is being kicked around: Did the Orioles, in holding the Dodgers scoreless for a record 33 consecutive innings while putting together the first American League sweep in 16 years, destroy the myth of National League superiority?

Strangely enough, Frank Robinson, the guy who did the most to destroy the National League representatives, thinks not.

Not so different.

"I believed that when I was in the National League," said Robinson, who supplied the only homer in Sunday's 1-0 Series finale. "I still think over-all the National League is stronger, but it's not so much different in the two leagues as you're led to believe."

Not many experts agreed before the Series. The myth of superiority had been built through three straight World Series triumphs by National League teams and a succession of All-Star Game victories, and the Dodgers were quickly installed as 8-5 favorites for the Series.

Then it happened. The names were Moe Drabowsky, Jim Palmer, Wally Bunker and Dave McNally—and they completely stifled the Dodgers, holding them scoreless from the third inning of the first game to the end of the Series.

Was it American League superiority?

Point Of View

The answer, as it came from the dressing rooms, depended on the point of view. Harry Brecheen, the Orioles' pitching coach, said it was Baltimore's pitching superiority. Maury

Wills, the Dodgers captain, saw it more as Los Angeles' inadequacy at the plate.

"To me I gotta say it's good pitching," Brecheen explained. "We didn't hit and they didn't hit. It's gotta be real fine pitching. I think the kids were able to pitch against Koufax and Drysdale because it was a challenge that they were pitching against a superstar and a star."

"With all due respect to their pitching a lot of it had to do with the fact that we were lousy with the bat," said Wills. "We had a bad hitting Series. They

had a good pitching series. It was a combination of both.

"They say when you watch the Dodger bats, it's just like watching a silent movie."

Four-Hit Finale

It was just that after McNally was lifted in the third inning of the opener, Drabowsky pitched 6 2-3 innings of shutout relief in winning 5-2. Palmer won 6-0 while allowing only four hits, Bunker won 1-0 while allowing only six hits and then McNally came back Sunday, and finished it off with another four-hit.

The only run was supplied by Frank Robinson, who powered the first pitch to him by Don Drysdale in the fourth inning some 410 feet into the left field stands for a homer and the final revenge shot heard back in Cincinnati.

Robinson had been traded to the Orioles on Dec. 9 last winter and labeled with an old-man tag. And his only thought had been wiping it out.

"I've been playing this season since Dec. 9," he said after the game. "I wanted to have a good year—it was the first thought on my mind. I wanted to show the people that I wasn't washed up."

Powell First Player To Gain Four Miles; Jets Defeat Chiefs

By The Associated Press

Art Powell is looking forward to the next four miles. Tom Flores will settle for 261 yards and a full-time job every week-end.

Flores, a six-year pro, started at quarterback for the first time this season and went the distance, firing three touchdown passes and completing 14 of 24 for 261 yards.

Powell made only two catches but one was a 25-yard touchdown strike and the other, a 13-yarder, made him the first player in AFL history to reach the four-mile mark on pass receptions.

The 29-year-old end, in his seventh AFL season, has gained 7,053 yards—13 over four miles—on 432 career receptions.

The Raiders' second victory—both over the winless Dolphins—in five starts kept them alive in the Western Division race, two games behind co-leaders San Diego and Kansas City.

The Chargers fell into a first-place tie with Kansas City, at 4-1, Saturday night when they bowed to the New York Jets 17-16 while the Chiefs battered Denver 37-10. Boston stunned Buffalo 20-10 in another Saturday night game, helping the Jets take a commanding lead in the Eastern race.

Powell's touchdown grab sent Oakland ahead 7-3 in the second quarter. After Joe Auer's three-yard scoring plunge gave the Dolphins the lead again, Flores hit fullback Roger Hagberg with a 24-yard TD pass, giving the Raiders a 14-10 edge at halftime.

Joe Namath passed 44 yards to Bill Mathis and 17 to George Sauer midway in the fourth quarter, setting up an eighty-yard touchdown burst by Emerson Boozer that lifted the Jets past San Diego before a Shea Stadium crowd of 63,497—the largest in AFL history.

The Jets hung on in the closing minutes as Dick Van Raaphorst, who had booted three field goals for San Diego, missed on 30 and 21-yard attempts. The Jets, 4-0-1, are the only unbeaten club in the league.

Apisa's Run Breaks Open Game; Spartan Record Still Intact

EAST LANSING (AP)—Michigan State's speedy Clint Jones sprinted toward the end and a pack of Michigan defenders set out to smother him to the ground—again.

Except this time the pitchout was nothing but a good fake by quarterback Jimmy Raye, and fullback Bob Apisa grabbed the ball and ran 40 yards to the Michigan 16-yard line.

The play broke open Saturday's game in which No. 1-ranked MSU had been scrambling to protect an early 7-0 lead against a Michigan team that hit harder than any squad the Spartans could remember.

That same fake pitchout play clicked again a few seconds later and Apisa scored a 6-yard touchdown in the early minutes of the fourth quarter.

MSU went on to a 20-7 victory, keeping its unbeaten record intact and cutting Michigan's edge in the 50-year-old Michigan-Michigan State series to 36-18-5.

Record Crowd

This was the 19th straight sellout crowd for the game, and in those last 19 games MSU has enjoyed a 12-5-2 edge. A Spartan Stadium record crowd of 78,833, which spilled over into folding chairs behind the end zones, saw the bruising battle.

One of those fans, Gov. George Romney, came out with his perfect record ruined.

The governor, who crosses the field at halftime, always has ended up sitting on the winning side.

But no sooner had Romney crossed to the Michigan side than MSU came out and drove to Michigan's 10-yard line.

A 15-yard penalty for illegal use of hands stopped the drive. Dick Kenney missed an attempted, 26-yard field goal.

The fake pitchout play started the Spartans moving again. After Apisa's touchdown, defensive tackle Pat Gallinagh tore Michigan's Ernie Sharpe loose from the ball and Charles Thornhill recovered for MSU at the Michigan 28.

Raye To Washington

Three plays later, Raye hit Gene Washington with a 24-yard scoring pass.

"It wasn't a day for the timid," said MSU Coach Duffy Daugherty.

"It was one of the hardest hitting, toughest games I've ever seen," said U-M Coach Bump Elliott. "I think they (MSU) deserve their top ranking."

"They never gave up for an instant," Gallinagh said of the hard-pursuing Wolverines who almost completely stopped MSU's favorite sweep runs.

Michigan halfback Carl Ward added, "We were so close, yet so far away."

Michigan held Jones to 45 yards in 16 carries, a 2.4 yard average.

But, said Daugherty, "You've got to leave a weakness somewhere." He grinned and added, "I'm a bit dense. It took me a while to find it."

That's where Apisa's play came in. In all, he ran for 140 yards in 14 carries.

Wolverines Throw

On the other hand, Michigan

didn't do anything we didn't expect," said MSU defensive captain George Webster.

What Michigan did was pass 48 times. Quarterback Dick Vidmer completed 18 for 168 yards, but he lost 34 yards trying to throw. That cut the Wolverines' rushing yardage to 47.

MSU couldn't completely stop U-M and Jack Clancy. He caught nine passes for 98 yards. But Vidmer was throwing to halfback Jim Detwiler when Michigan finally scored on a 15-yard, fourth down toss in the fourth quarter.

The biggest share of that scoring drive was contributed by burly U-M fullback Dave Fisher, who boomed 40 yards on one run, aided by a crushing block by Ward.

Both teams escaped serious injury.

"Both were playing full tilt," commented Daugherty. "And that's the type of game in which you get the fewest serious injuries."

MSU will try to stretch its victory string to five straight next Saturday against an Ohio State team which Daugherty has good reason to believe has been preparing an ambush for MSU since last spring.

More people get more news from newspapers than from all other sources combined.

Long Victory Strings Snapped For State College Grid Teams

Albion and Hillsdale can start thinking about starting new winning streaks while Western Michigan continues to savor its first victory over arch-rival Bowling Green since 1954.

Albion saw its state-leading 10-game winning streak snapped by Ohio Wesleyan, 34-16, while Hillsdale lost a 26-13 decision to Northeast Missouri State Saturday, for its first setback in nine games.

Western Michigan gave Athletic Director and former football coach Mike Gary the biggest present on his special day by upsetting Bowling Green, 16-14, in a Mid-American Conference game.

The losses by Albion and Hillsdale left No. 1 ranked Michigan State as the state's lone unbeaten, untied team.

Olivet triumphed over Alma upset Kalamazoo by identical 18-0 scores in the only MIAA games played, while Adrian outlasted Lake Forest, Ill., 28-21, in the other game involving a league team.

Northern Gets Win

Northern Michigan handed Central Michigan its fifth straight setback, 35-14, Findlay blanked Ferris 20-0, Eastern Michigan clobbered Western Reserve 18-3, Northwest beat Ohio Northern, 23-7, and Winona State all but ended Michigan Tech's hopes of repeating as NIC champion with a 21-14 upset victory, in the others.

Western Michigan turned two Bowling Green fumbles into touchdowns and Dale Livingston added a 26-yard field goal as the Broncos brought their record to 3-1.

Jim Boreland passed 31 yards to Sam Antonazzo for what proved to be the winning touchdown to cap a 60-yard drive started when Orville Schneider recovered a Falcon fumble.

Tim Majerle scored on a three-yard run in the first quarter after Bob Rowe grabbed up the first of his two fumble recoveries.

Falls Far Behind

Albion fell behind by 24 points before it was able to rally its offense for a pair of touchdowns in the final quarter. Prentiss Brown scored on a plunge and Tom Myers passed 19 yards to Rich Stefani for the Briton tallies.

Bart Drake scored twice for Ohio Wesleyan and Dick Toth added 10 points on four conversions and field goals of 32 and 41 yards.

Joseph Brown and Doug Dorman scored for Hillsdale as end Larry Fowler set snail scoring records when he increased his career pass catches to 74 and yards gained on the receptions to 1,280.

Jeff Blough's 40-yard fied goal started Alma on its way to its first triumph of the season. Keith Bird tackled Kalamazoo quarterback Rick Russell for a safety giving Alma a 5-0 halftime lead, and Tom Jakovac returned a punt 60 yards and Paul Portney went a yard for Scott scores in the fourth quarter.

McCarthy Hits Target

Barry Jackson's two touchdowns and a pair of safeties featured Olivet's victory. Hope quarterback Gary Frens set a MIAA record with a 50-yard

punt in the second quarter but was tackled in the end zone twice—by Dave Price and Dan Fitzpatrick—for the safeties.

Three pass interceptions by John Chirant and two touchdowns passes from Rich McCarthy to Jesse Jenkins highlighted Northern Michigan's rout of Central Michigan.

Chirant returned one of the interceptions 60 yards for a score while Les Wilson and Jim Lindstrom tallied on short runs. Bob Russo got both of CMU's touchdowns.

Bob Edelbrock went over from the one to snap a 3-3 tie and help Eastern Michigan record its first triumph of the season. Joe Bechtel scored in the fourth quarter and Lonnie Head booted a 27-yard field goal for the Hurons.

Dishman Teases TD

Pete Yelorda scored all four touchdowns for Adrian, three of them in the second half. Yelorda gained 173 yards in 20 carries.

Jay Dishman hit Dan Van Abel with a 23-yard scoring pass and Tom Cemarich went in from the three for Michigan Tech's points in the loss to Winona State.

Ferris managed just four first downs and gained a mere 37 yards passing and 65 rushing against Findlay.

Northwood scored its first-ever football win over Ohio Northern as Bill Simmons scored two touchdowns in the second quarter—once on a 74 yard pass interception and on a 20 yard pass play from Duane Miller. Northwood added nine more points in the third quarter on a touchdown and a safety.

MANISTIQUE

Park Planned At Seul Choix

The Seul Choix Point area east of Manistique is being planned for acquisition by the state as a park, according to Conservation Department spokesmen.

Seul Choix is a rocky headland about 20 miles east of Manistique along the Lake Michigan coast. There is a small harbor and sand beach where Indians had a village, later it became a fishing settlement, and is now considered a prime recreation and scenic area.

A U.S. lighthouse is at the eastern tip of the point. Much of the remaining land in the area is owned by the Goureaux family, pioneer settlers and commercial fishermen.

The state has acquired 240 acres of land in sections 16 and 17, west of the lighthouse. The parcel was purchased in October, 1965, from Charles La Hale, Cheboygan real estate operator, at a cost of \$3,600. A land and water conservation fund grant of \$1,800 from the department of the interior has been used to cover half this cost.

Conservation spokesmen in Lansing said the area is adjacent to the Manistique river state forest holdings.

The proposal areas would be developed for camping, swimming, hiking, picnicking, boating, nature trails, fishing and hunting.

The location of the camping area and the date development would start have not been determined.

Seul Choix is the site of early Indian settlements, and University of Michigan archeologists conducted explorations in the area last summer, unearthing traces of early Indian culture.

"Seul Choix" in French means "only choice," or "last choice." It is thought this refers to the harbor near the point, offering protection to small boats in the early days.

Council Meeting

The City Council at its meeting at 7:30 p.m., today will consider a request of an individual to purchase Lot 24 of Blk. 4, Daniel Heffron addition at the northeast corner of South 5th St., and West Elk. The land is owned by the city. Old business on the agenda is a request of Lyle Demers for vacation of dedicated street right of way on Schoolcraft Ave., from West Elk north 120 feet. The vacating would be in favor of the owners of property abutting the right of way.

Big Firms Now Building Cities

By JOHN CUNIFF
NEW YORK (AP) — The company that made your toaster or perhaps the tires on your automobile may be among those joining in the newest growth industry: building cities.
General Electric Co. has made plans to add cities to its product line within a year. The expected cost for each city will be about \$800 million to \$1 billion over a 15-to-30-year period.
Goodyear Tire & Rubber Co. is building what it hopes will be a city of 100,000 persons near Phoenix, Ariz. It also expects to invest about \$1 billion.
Humble Oil & Refining Co. is heavily invested in Clear Lake City, Tex. and millions of dollars of corporate money backed the private developers of Reston, Va., and Columbia, Md.
The new industry has a vast concept. It encompasses the houses, churches, museums, the fire house — all built from the cellar holes up undeterred by red tape or old-fashioned building codes.
The production of brand new towns is perhaps a logical consequence of urban blight, the profit motive, the population boom. It is a modern-day evolution, greatly expanded, of what we once knew as housing developments.

Seniors' Parents Meeting Set On Advanced School

Parents of seniors in Manistique High School have been invited to a meeting at 7:30 p.m., Wednesday in the high school auditorium for a program on education beyond the high school level. The meeting is for all parents, including those of students who will be attending college and all other advanced schools. The informal program will be conducted by the guidance department.

Eastern Star Elects Officers

Mrs. Clarence Johnson was elected worthy matron of Ida Chapter 54 of the Order of Eastern Star. She will succeed Mrs. Clifford Cool in installation ceremonies Oct. 22.

Also elected were: Clarence Johnson, worthy patron, Mrs. Franklyn Burgess, associate matron, Clifford Cool, associate patron, Mrs. Hazel Johnson, conductress, Mrs. Cecil Taylor, associate conductress, Mrs. John Lustila, secretary, Franklyn Burgess, treasurer.

Appointive officers, including the star points will be announced by the worthy matron at installation.

At a luncheon served following the election, Mrs. Cool presented officers of her staff with gifts.

Church Events

Zion Lutheran Church Council meets at 7:30 p.m., Tuesday in Augustana hall. Patience group of the LCV meets Tuesday at 8 p.m., in the home of Mrs. Vern DuFour, 551 Arbutus. Members are asked to note change in meeting date.

Hospital

Admitted to Schoolcraft Memorial Hospital were Henry Messer and Helen Chaparon.

Discharged were Lori Lancour, Thomas Mincoff, Kelly and Kris Glidden, Arlene Bonner, Josephine Brislows, Rose Bassett, Margaret Beckman, William McKenzie, Betty Oerhout, Stephen Olesak, John Stoor and Dagmar Thompson.

Births

A son weighing 7 pounds 1 1/4 ounce was born Oct. 7 in Schoolcraft Memorial Hospital to Mr. and Mrs. Lowell F. Chaparon. The mother was formerly Helen Mae Short.

Briefly Told

John Daughters meet Tuesday at 7 p.m.
World War I veterans meet today at 7:30 p.m. in the VFW clubrooms.

Panelists See Slower Growth

CLEVELAND, Ohio (AP) — Steel Magazine's 31-member panel of economic consultants report "business in 1967 will top this year's, but the growth rate will slacken a little each quarter."

The panelists, economists for manufacturing and financial firms, give the metalworking weekly their opinions each spring and fall on upcoming business conditions. Their fall predictions indicated:

—Gross national product will rise again next year, reaching \$750 billion. But the year-to-year gain will be only 6 per cent versus this year's improvement of more than 8 per cent.

—Capital spending will continue to climb until midyear—but the year-to-year gain is likely to be only a third of this year's 17 per cent.

—Inflation will persist—but wholesale prices will go up only 2.5 per cent compared with this year's expected 2.1 per cent gain over 1965's figure.

"Most of the panelists base their forecasts on the assumption that the war in Vietnam will continue through 1967 and spur defense spending at least until midyear," Steel said.

"They look for government spending to expand by about 10 per cent, even though inflation is one of the administration's prime worries."

Best-Kept Secret Of Man Is Alcoholism!

By HAL BOYLE

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

The newest black market is in credit cards. Some 20 million Americans now carry credit or charge-account cards, of which 1.5 million are lost or stolen each year. Their illegal use costs \$20 million annually.

A fresh-water fish goes through life without ever taking a drink of water. He gets all he needs of the stuff as it seeps through his gill membranes.

No wonder the English language is confusing to a foreigner. If he asks for an economy-size box of detergent, he gets a big one; if he buys an economy-size automobile, it's a small one.

The reason people need deodorants is that they have more sweat glands than any other animal on earth. Surprisingly, sweat glands are densest on the soles of the feet and on the palms of the hands, where they may number 3,000 to the square inch. (That's why some guys have such clammy handshakes.)

What is man's best-kept secret? It is alcoholism, says Dr. Lincoln Williams of London. He estimates there are five secret alcoholics to every known one.

QUOTABLE NOTABLES:

"The reasonable man adapts himself to the world; the unreasonable man persists in trying to adapt the world to himself."

—G. B. Shaw.

Boots Are Better'n Ever

Hunting Clothes Improved

By LEE SMITS

Hunting seasons, dating back before the era of smokeless powder, have produced an accumulation of lore, notions, hunches. At the outset a big-eyed kid soaked in the wisdom of a gray, soft-spoken outdoorsman who had been a sharpshooter in the Civil War. He was known around town as Six-By-Six—six feet tall, six inches through.

This veteran had fixed ideas, which included a prejudice in favor of moccasins made of oiled cowhide. After wearing a pair all day on frozen ground

Isabella

Delta County Farm Bureau Women will hold a regular meeting Oct. 11 at 11:30 a. m. at Jack's Restaurant in Rapid River. The guest speaker will be Mrs. Roger Patrow who will show a film on Ethiopia. All ladies are invited to attend.

Rapid River

WCSO Meets

The Women's Society of Christian Service of the Back River Methodist Church will hold a meeting at the church, Wednesday, Oct. 12, at 8 p. m. Mrs. Richard Hendra will show a film strip, "We, the People of the UN." Hostesses will be Mrs. Harold Dahlberg and Mrs. Robert Wickstrom.

the kid limped for a week. This fine old-timer composed a ration of cornmeal, suet, raisins, baked to the consistency of dog biscuit. The kid gnawed it, with no damage to his durable insides.

Now comes the time when the pupil of Six-By-Six can unload some of his own notions. Let's start with a hunter's feet. A pheasant hunter does well to tote light rubber boots for use in wet cover, in heavy dew or in case of rain. On dry ground there is much to be said for ankle-high canvas shoes, with arch supports if needed, and the excellent infantry socks obtainable at army surplus stores.

Basic rules of pheasant hunting seem hard to communicate. Tramp a cornfield, with guns stationed at the far end. You see a rooster scooting ahead. As you near the end of the field, you see the waiting hunters shift positions. You hear voices. The scooting rooster squats, ducks, circles and stays safely on the ground. When it is your turn to wait at the end of a driven field, stand still! Don't talk.

Walking any field, hoping for pheasants, it pays to come to a quick halt now and then, and just stand. This often will cause a sneaking runner to take to the air. He may be only a few yards off when he jumps.

For upland shooting of any kind, the old-fashioned waterproof hunting coat is obsolete. Sleeves bind your arms as you swing a gun. What you need is a skeleton shooting vest, composed of pockets.

It is as important for a bird hunter to have bright colors in his attire as it is for the deer hunter and, of course, while hunting in thick cover you should keep calling to your companions so they know where not to shoot.

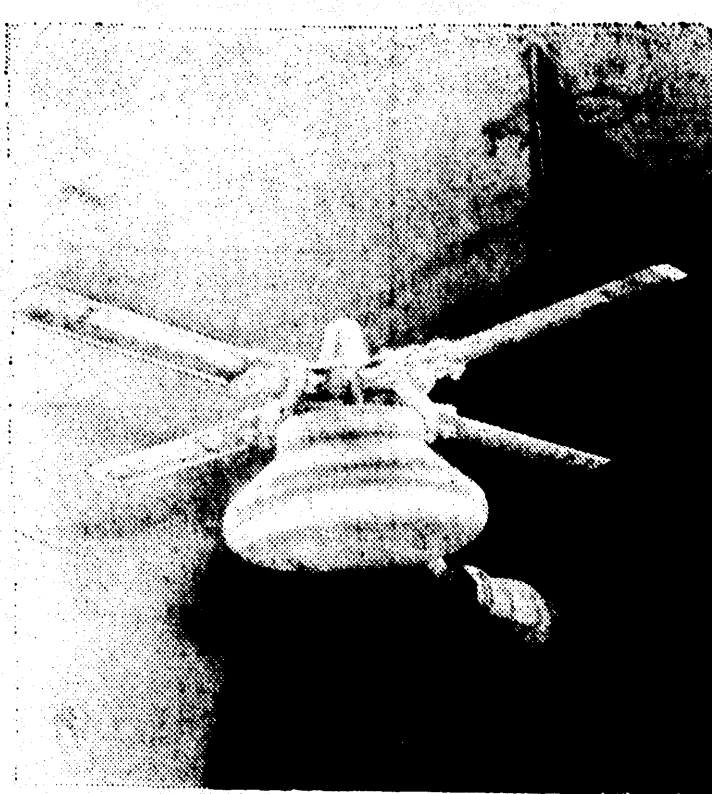

Deer hunters in general favor light rubber boots, pull-on or laced, rather than the leather-rubber combinations. Waterproof footgear is also a good idea for the grouse and woodcock shooter.

The best woodsmen Michigan ever knew were the old-time timber cruisers. They wore heavy leather boots, laced, that reached almost to the knee. This was on instance where the experienced professional was in

error. These monstrosities are virtually off the market.

The duck-shooter has to contend with more kinds of hardship than any other sportsman. Wet, cold feet, for one thing. There are hip boots that have oversize feet and pull on over standard foot gear, including sheepskins. For layout or sneak boat, standard rubber overshoes are suitable, bearing in mind that the layout shooter needs complete foul-weather gear, overall, lying in an inch or two of cold water if there is rain or a choppy sea.

On the marsh, hip boots will do, waders are better. One last word of advice—and this is 100 per cent sound—if you start to sink, wading a marsh, don't wait until you're chest-deep in ooze, and never, never try to climb out. When you get down below your knees—and this holds true also for quicksand—fall forward, or backward, and haul yourself out by grabbing whatever you can grab or dig into the sand or mire and paddle—for your life.

RE-ENTRY VEHICLE for future astronauts returning to earth from space could resemble this model rotor craft now undergoing wind-tunnel tests at NASA's Ames Research Center, Mountain View, Calif. It's designed to enter the atmosphere with partially extended rotor blades, angled back, to slow it down from the high speed of orbital flight. Once in the atmosphere, the craft would extend rotors fully, as shown on the model, for descent to earth much as a conventional helicopter makes an unpowered landing.
